Better Venture Erika Brodnock,Johannes Lenhard,2020-11-11 Better Venture is a first of its kind guide to diversity and inclusion in startups and venture capital who funds who gets funded and how the industry can change The industry s lack of diversity and inclusion not only compromises moral standing it means overlooking profitable businesses and talented founders That costs hundreds of millions of dollars a year and neglects ideas that could serve the needs of many more people In this collection of interviews stories and research we use the momentum that has been building in recent years to expand the conversation about DEI venture capital and the startup ecosystem and to inspire more concrete action Highlights 43 in depth conversations with leading investors entrepreneurs and researchers making it one of the most comprehensive and diverse sets of perspectives on the startup ecosystem ever assembled in one place An economic history of venture capital through a diversity lens On the ground stories from founders and VCs that explore ways to create a more diverse inclusive equitable and profitable venture ecosystem No blog post can give the deep understanding and vision needed to address the complexity of the topic That s why we came together to write this book and are bringing in so many voices to clarify the picture of what is and what could be Over the course of two years of research and discussion with almost 100 experts we set out to answer four questions Why has the industry been so slow to change We map the economic origins and history of

venture capital to understand how the economics of VC has contributed to the glacial pace of diversifying the industry What barriers are founders and investors facing now We draw on contributions from investors operators founders and journalists to help catalog the barriers for founders seeking funding and for investors seeking entry and influence in the industry Can diversity really lead to higher returns We bring in new research and data to help us understand how betting on underrepresented founders and investors is really the better venture Why does diversifying the industry matter and to whom How is it linked to financial performance and better decision making How will it improve innovation across industries What can be done for positive change We discuss cost effective and evidence based interventions tools and solutions that can help to make the VC and startup worlds more diverse and inclusive and result in higher returns We hope this book and the conversations it contains help fulfill the vision of a more diverse inclusive and profitable ecosystem It s time venture got better New Venture Creation Brian Brown,2008 **Nothing Ventured, Everything Gained** Dileep Rao,2018-08-14 Is it possible for entrepreneurs to succeed at growing ventures without early stage venture capital Based on the fact that more than 9 out of 10 of America s billion dollar entrepreneurs did take off without early stage VC Dileep Rao says YES In **Nothing Ventured Everything Gained** Dileep Rao shatters the dominant myth that entrepreneurs need early stage venture capital to build a giant business In fact says Rao by avoiding or even delaying VC billion dollar entrepreneurs can control their companies and the wealth created by them and retain more of that wealth The book is based on 30 of Rao s interviews with billion dollar entrepreneurs BDEs and hundred million dollar entrepreneurs HMDEs and the analysis of the strategies of 85 BDEs The author introduces the finance smart skills opportunity secrets and strategy secrets of BDEs who took off without VC and proves his points via stories of successful giants like Jeff Bezos Mark Zuckerberg and Steve Jobs Every entrepreneur will do well to read and benefit from Rao s invaluable insights and expertise Dileep Rao PhD financed the growth of hundreds of businesses and real estate projects over the twenty three years he was VP of financing and business development at a venture development and finance institution He advises entrepreneurs governments Fortune 1000 corporations and financial institutions on building big businesses with finance smart strategies Dr Rao is a clinical professor of entrepreneurship at Florida International University and has taught at Stanford University the University of Minnesota and in executive MBA programs in Europe Latin America and Asia **No Red Lights** Alan J.
