epic battle centered around Jerusalem and the Middle East **The Jaynes Legacy** Lawrence Wile, 2018-01-03 Julian Jaynes 1976 book *The Origins of Consciousness in the Breakdown of the Bicameral Mind* continues to arouse an unsettling ambivalence Richard Dawkins called it either complete rubbish or a work of consummate genius nothing in between The present book suggests that the bicameral mind is a phantasm the dating of the origin of consciousness contradicts archeological and literary evidence and the theory contributes nothing toward explaining why some physical states are conscious while others are not because the nonconscious bicameral brain is neurophysiologically equivalent to the conscious brain However the author pays tribute to Jaynes's work as a work of consummate genius because it compels us to re-evaluate the significance of humankind's earliest traditions and texts that might shine light on the very suspicious totem of evolutionary mythology that consciousness has evolved continuously and gradually from worms to man The present book suggests that the evolution of the relationship between consciousness, mass energy and spacetime radically changed nearly 6 000 years ago during the epigenetic evolutionary degeneration of a little known threadlike structure originating from the center of the central nervous system called Reissner's fiber The earliest Egyptian Hebrew Indian and Chinese traditions buried beneath the dust of fallen Babel and thousands of years of distortions and disguisings describe this process during the origin of religion and mystical traditions **Himalayan Bridge** Niraj Kumar, George van Driem, Phunchok Stobdan, 2020-11-18 The centrality of the Himalayas as a connecting point or perhaps a sacred core for the Asian continent and its civilisations has captivated every explorer and scholar The Himalaya is the meeting point of two geotectonic plates three biogeographical realms two ancient civilisations two different language streams and six religions This book is about the determinant factors which are at work in the Himalayas in the context of what it constitutes in terms of its spatiality legends and myths religious beliefs rituals and traditions The book suggests that there is no single way for understanding the Himalayas There are layers of structures imposition and superimposition of human history religious traits and beliefs that continue to shape the Asian dynamics An understanding of the ultimate union of the Himalayas its confluences and its bridging role is essential for Asian balance This book is a collaborative effort of an internationally acclaimed linguist a diplomat cum geopolitician and a young Asianist It provides countless themes that will be intellectually stimulating to scholars and students with varied interests Please note This title is co-published with KW Publishers New Delhi Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka **The Secret Legacy of Inner Earth** Robert J Dornan, 2025-06-12 What if everything you've been told about the structure of our planet is only the surface of the truth *The Secret Legacy of Inner Earth* is a bold immersive journey through the world's most haunting myths forbidden theories and veiled histories all pointing toward one chilling possibility that beneath our feet lies a realm untouched by modern civilization yet deeply entangled with its origins From ancient texts and sacred legends to military secrets and seismic enigmas this book unravels a mystery that spans continents and centuries Enter the Tibetan legends of

Agartha the Norse and Greek visions of underworld realms and the occult whispers found in esoteric religions Walk in the footsteps of explorers who vanished seeking hidden entrances Examine the strange anomalies that science cannot fully explain and the institutions that may be hiding the truth In seven gripping parts The Secret Legacy of Inner Earth explores The echoes of subterranean worlds in sacred scriptures and myth Secret gateways hidden in the ice caves and deserts of our world Advanced civilizations said to thrive in peace below Connections between Inner Earth UFOs and interdimensional travel The Nazi obsession with underground realms and their chilling expeditions How art architecture and culture may hold encoded maps to the world beneath The psychological hunger to believe and the question what if it s not belief but memory Featuring a fictional interview with an alleged Inner Earth witness never before seen map comparisons and timelines of cover ups and conspiracies this book is a treasure trove for truth seekers skeptics and those who sense that Earth holds more secrets than science admits Whether you see Inner Earth as myth metaphor or mystery waiting to be proven one thing is clear some truths were buried for a reason Dare to go deeper The world beneath is calling
