Unification of Assets: Perspectives from Finance & Banking Vibhay Kumar, Krishna Nath Pandey, 2024-03-13 List of Tables List of Figures List of Abbreviations Chapter 1 Introduction Chapter 2 Evolutionary Prospective Chapter 3 Progression of the Pathways Chapter 4 Collation of the Outcomes Chapter 5 Epilogue and Thereafter **Cumulative Catalogue of Theses, 1937-** Stonier Graduate School of Banking, 1937 *Empirical Evidence on cross-border M&A in the European Banking Sector* Johannes Weigl, 2012-08-16 Master s Thesis from the year 2008 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 8 5 Maastricht University language English abstract Mergers and Acquisitions abbreviated M A within the European financial market have altered the European banking sector drastically in the past couple of decades Walkner Raes 2005 claim that cross border M As have not been a major feature of the EU banking sector implying that domestic bank mergers dominated the merger process for a long time From 1995 to 2006 the number of credit institutions decreased on average by approximately 7% in the eurozone which was mainly driven by domestic merges However since the mid of the 1990s cross border M As gained momentum and play a significant role in the European banking consolidation process Nevertheless cross border M A has never come close to exceeding domestic mergers and acquisitions Kleimeier et al 2007 Despite the high level of M A activity in Europe relatively little research has been conducted dealing with cross border M As Most of prior research applies event study methodology in order to analyze announcement effects of European bank M As Further these studies focus on the question whether bank M As in Europe have created or destroyed shareholder value Others try to provide an in depth analysis of the factors that affect and may explain the value creation process Altunbas et al 2007 or Beitel et al 2003 try to explain the M A success in European bank mergers However the results often lack explanatory power Therefore this thesis looks at the success of cross border M A from a different perspective The paper aims at understanding whether or not culture plays an important role in the success of M As Consequently the study tries to identify cultural characteristics of bidder and targets which have explanatory power for bidder returns and the combined effect of both bidder and target The thesis has several unique features First the study conducts an extensive short term and long term analysis on cross border M As Second the results of the event studies are

tested by employing accounting studies as well Third the thesis provides a real life example of the merger between UniCredit and HypoVereinsbank This thesis is the first one which extensively analyzes the following research question Are cross border M As of cultural similar countries more successful The bidder competition for ABN AMRO Natalie Dammann,2008-05-13 Bachelor Thesis from the year 2008 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade 1 7 gesamt European Business School International University Schlo Reichartshausen Oestrich Winkel language English abstract As the global economic environment changes the banking sector banks are positioning themselves in order to compete against one another Although some banks focus on a particular market niche the most salient feature of competitive posturing has been a trend toward the consolidation and rapid development of large big banks The banking sector has experienced rapid consolidation globally which to some extent reflects the general mergers and acquisitions M A activity in the global economy Mergers and acquisitions in the banking sector appear in the headlines frequently A recent example is ABN AMRO Holding N V ABN AMRO This banking group always assumed that it would be on the attacking end of a takeover bid rather than the receiving end However on 23 April 2007 ABN AMRO received a EUR 65 7 billion bid from Britain s Barclays PLC Barclays in what could be the biggest banking merger ever Then two days later an even bigger potential offer came in from a European consortium led by the Royal Bank of Scotland RBS which aimed to dismember ABN This offer verged on hostility setting the stage for what emerged to be the longest and most bruising take over battle in the banking sector s history ICBAE 2020 Bima Cinintya Pratama, Naelati Tubastuvi, Suryo Budi Santoso, Azmi Fitriati, Robbi Rahim, 2020-10-15 The 2nd International Conference of Business Accounting and Economics ICBAE 2020 continued the agenda to bring together researcher academics experts and professionals in examining selected theme by applying multidisciplinary approaches This conference is the second intentional conference held by Faculty of Economics and Business Universitas Muhammadiyah Purwokerto and it is a bi annual agenda of this faculty In 2020 this event will be held in 5 6 August at Faculty of Economics and Business Universitas Muhammadiyah Purwokerto The theme of the 2nd ICBAE UMP 2020 is Economics Strength Entrepreneurship and Hospitality for Infinite Creativity Towards Sustainable Development Goals SDGs It is expected that this event may offer contribution for both academics and practitioners to conduct researches related with Business Accounting and Economics Related Studies Each contributed paper was refereed before being accepted for publication The double blind peer reviewed was used in the paper selection BUSINESS, SUSTAINABLE DEVELOPMENT & OTHER EMERGING ISSUES Dr. Sudipta Mondal, Gourab Das, 2021-09-23 *Mergers and Acquisitions (M&As) in the Banking Sector* Matthias Schubert, 2002-04-22 Seminar paper from the year 2002 in the subject Business economics Investment and Finance grade 1 0 A Berlin School of Economics course International Corporate Finance language English abstract The last decade of the 20th century was a decade of enormous changes in the banking sector worldwide If one compares the largest banks of the world in 1995 with those at the end of 2000 it is obvious to see that many changes have

happened in recent years In 1995 all top five banks were from Japan total assets in million USD in brackets Dai Ichi Kangyo Bank 626 171 Sumitomo Bank 617 053 Sakura Bank 607 245 Sanwa Bank 600 111 and Fuji Bank 587 154 At the end of 2000 the top five banks ranked by total assets were Sumitomo Mitsui Banking Corp Japan 958 189 CitiGroup USA 902 210 Deutsche Bank Group Germany 882 577 HSBC Holdings U K 673 814 and Bayerische HypoVereinsbank Germany 672 720 These newly formed banking groups arose from mergers and acquisitions M As and therefore they are good examples for all the M As that have taken place in the banking sector worldwide in recent years In this scientific paper the M A activity in the banking sector is being analysed on a global basis and where appropriate with a special focus on European activities To do so the following procedure has been chosen After the presentation of typical patterns of consolidation the main causes of consolidation and risks arising from M As will be examined Afterwards the economical results of the M A process will be analysed to give a conclusion and an estimation on future activities *Study of Banking Laws* United States.
