Subcommittee on Railroads,1997 **To Thank a River** Jean Clausen,1996 The seasons flowers trees birds and other animals the artistry of spider webs the beauty of sunsets especially the omnipresence of the river are all interwoven with sincerity and emotion This book features the best memories of the author s life along the Wisconsin River **Native American Catholic Studies Reader** David J.

Endres,2022-08-12 Before there was an immigrant American Church there was a Native American Church The Native American Catholic Studies Reader offers an introduction to the story of how Native American Catholicism has developed over

the centuries beginning with the age of the missions and leading to inculturated indigenous forms of religious expression. Though the Native Christian relationship could be marked by tension, coercion and even violence, the Christian faith took root among Native Americans and for those who accepted it and bequeathed it to future generations it became not an imposition but a way of expressing Native identity. From the perspective of historians and theologians, the Native American Catholic Studies Reader offers a curated collection of essays divided into three sections: education and evangelization, tradition and transition, and Native American lives. Contributors include scholars currently working in the field: Mark Clatterbuck, Damian Costello, Conor J. Donnan, Ross Enochs, Allan Greer, Mark G. Thiel, and Christopher Vecsey, as well as selections from a past generation: Gerald McKevitt SJ and Carl F. Starkloff SJ. These contributions explore the interaction of missionaries and tribal leaders, the relationship of traditional Native cosmology and religiosity to Christianity, and the role of geography and tribal consciousness in accepting and maintaining indigenous and religious identities. These readings highlight the state of the emergent field of Native Catholic studies and suggest further avenues for research and publication. For scholars, teachers, and students, the Native American Catholic Studies Reader explores how the faith of the American Church's eldest members became a means of expressing and celebrating language, family, and tribe.

A Spirit of Dialogue Christopher N. Okonkwo, 2008. A groundbreaking study, *A Spirit of Dialogue* examines through extensive interdisciplinary research, theory, and close reading the intricate reconstructions, extensions, and resonances of the West African myth of spirit children, the *Born to Die*, in contemporary African American neo-slave narratives. Arguing that the myth called *Ogba* (je in Igbo language and *b k* in Yoruba) has had over thirty years of uncharted presence in African American literature, Okonkwo advances a compelling case absent in extant scholarship. He traces *Ogba* (je the *Born to Die*'s appearance in African American texts to a convergence of factors. They include but are not limited to the impact of Chinua Achebe's *Things Fall Apart*, the 1960s emergence of the contemporary neo-slave narrative, the 1960s and 1970s Black Consciousness, Black Power movement, and the cultural agenda, gendered politics, and centripetal philosophy of the Black Arts movement's nationalist aesthetic. African American identity questions of the post-civil rights and the multicultural eras and the thematic shifts, as well as the African diaspora orientation of African American fiction of the post-nationalist aesthetic period. *A Spirit of Dialogue* focuses on the sometimes neglected and understudied works of four canonical African American writers: Octavia E. Butler's *Wild Seed* and *Mind of My Mind*; Tananarive Due's *The Between*; John Edgar Wideman's *The Cattle Killing*; and Toni Morrison's *Sula* and *Beloved*. Okonkwo demonstrates persuasively how the mythic spirit child informs the content and form of these novels, offering Butler, Due, Wideman, and Morrison a non-occidental code by which to engage collectively with the various issues integral to the history/experience of African descended people. The paradigm functions then as the nexus of a life-affirmative dialogue among the six novels, as well as between them and other works of African religious and literary imagination, particularly *Things Fall Apart* and Ben Okri's *The Famished Road*.

Program United States. Congress. House. Committee on the Judiciary. Subcommittee on Commercial and Administrative Law,2002 **Death in American Texts and Performances** Mark Pizzato,2016-05-13 How do twentieth and twenty first century artists bring forth the powerful reality of death when it exists in memory and lived experience as something that happens only to others Death in American Texts and Performances takes up this question to explore the modern and postmodern aesthetics of death Working between and across genres the contributors examine literary texts and performance media including Robert Lowell s For the Union Dead Luis Valdez Dark Root of a Scream Amiri Baraka s Dutchman Thornton Wilder s Our Town John Edgar Wideman s The Cattle Killing Toni Morrison s Sula and Song of Solomon Don DeLillo s White Noise and Falling Man and HBO s Six Feet Under As the contributors struggle to convey the artist s crisis of representation they often locate the dilemma in the gap between artifice and nature where loss is performed and where re membering is sometimes literally reenacted through the bodily gesture While artists confront the impossibility of total recovery or transformation so must the contributors explore the gulf between real corpses and their literary or performative reconstructions Ultimately the volume shows both artist and critic grappling with the dilemma of showing how the aesthetics of death as absence is made meaningful in and by language **The Conquest** H. The Sioux Royal B. Hassrick, 2012-11-28 For many people the Sioux as warriors and as buffalo hunters have become the symbol of all that is Indian colorful figures endowed with great fortitude and powerful vision They were the heroes of the Great Plains and they were the villains too Royal B Hassrick here attempts to describe the ways of the people the patterns of their behavior and the concepts of their imagination Uniquely he has approached the subject from the Sioux's own point of view giving their own interpretation of their world in the era of its greatest vigor and renown the brief span of years from about 1830 to 1870 In addition to printed sources the author has drawn from the observation and records of a number of Sioux who were still living when this book was projected and were anxious to serve as links to the vanished world of their forebears Because it is true that men become in great measure what they think and want themselves to be it is important to gain this insight into Sioux thought of a century ago Apparently the most significant theme in their universe was that man was a minute but integral part of that universe The dual themes of self expression and self denial reached through their lives helping to explain their utter defeat soon after the Battle of the Little Big Horn When the opportunity to resolve the conflict with the white man in their own way was lost their very reason for living was lost too There are chapters on the family and the sexes fun the scheme of war production the structure of the nation the way to status and other aspects of Sioux life
