Spirit and Sonship David A. Höhne, 2016-03-09 This book weaves together an interpretation of Christian Scripture with a conversation between Colin Gunton and Dietrich Bonhoeffer concerning the role the Holy Spirit plays in shaping the person and work of Christ The result is a theological description of human personhood grounded in a sustained engagement with and critique of Gunton's theological description of particularity a topic central to all his thinking In the course of the conversation with Bonhoeffer the book also offers one of few broad assessments of his work as a systematic theologian In bringing together the work of two important modern theologians this book explores both the possibilities of theology generated from Christian Scripture and the central importance of the doctrines of Christ and the Trinity in understanding what it means to declare someone or something unique Domestic Demons and the Intimate Uncanny Thomas G.

Kirsch, Kirsten Mahlke, Rijk van Dijk, 2022-10-21 This book explores local cultural discourses and practices relating to manifestations and experiences of the demonic the spectral and the uncanny probing into their effects on people's domestic and intimate spheres of life The chapters examine the uncanny in a cross cultural manner involving empirically rich case studies from sub Saharan Africa Latin America and Europe They use an interdisciplinary and comparative approach to show how people are affected by their intimate interactions with spiritual beings While several chapters focus on the tensions between public and private spheres that emerge in the context of spiritual encounters others explore what kind of relationships between humans and demonic entities are imagined to exist and in what ways these imaginations can be interpreted as a commentary on people's concerns and social realities Offering a critical look at a form of spiritual experience that often lacks academic examination this book will be of great use to scholars of Religious Studies who are interested in the occult and paranormal as well as academics working in Anthropology Sociology African Studies Latin American Studies Gender Studies and Transcultural Psychology After the Spirit Eugene F. Rogers, 2006-01-28 In this title the author contends that whilst in classical Christian discourse the Holy Spirit pours out on all flesh in modern theology and worship the Holy Spirit has tended to float free of bodies and that the result of such disembodiment is that talk about the Spirit has

become flat and uninspiring The Eastern Christian tradition by contrast has usually linked the Holy Spirit with holy places holy people and holy things Taking his cue from this tradition Rogers locates the Spirit in the Gospel stories of the annunciation Jesus baptism the transfiguration and the resurrection These stories offer illuminating glimpses into both the Spirit s connection with the tangible world and the Spirit s distinctive place in relation to the other persons of the Trinity After the Spirit weaves together patristic medieval Russian and Syriac sources Rogers s witty and passionate prose is illustrated by the inclusion of eight color plates

Spirit(s) in Black Religion Kurt Buhring,2022-09-10 In this book Kurt Buhring explores concepts of spirit s within various Black religions as a means to make a constructive theological contribution to contemporary Black theology in regard to ideas of the Holy Spirit or pneumatology He argues that there are rich resources within African and African based religions to develop a more robust notion of the Holy Spirit for contemporary Black liberation theology In so doing Buhring offers a pneumatology that understands divine power and presence within humanity and through human action The theology offered maintains the fundamental claim that God acts as liberator of the oppressed while also calling for greater human responsibility and capability for bringing about liberation

Gods of this World Shandon L. Guthrie,2018-10-30 Philosophers of religion have focused almost exclusively on the existence and nature of God and the nature and destiny of human beings But these philosophers have been remiss in engaging discussions about the possibility of there being adverse gods of this world demonic beings despite being a doctrine that comprises a significant part of the Christian confession This drought in the literature has left a number of questions unaddressed including Hasn t science buried the demonic Are there any successful philosophical arguments for the existence of Satan What kind of being is Satan Is he the fallen angel of lore Is it reasonable for Christians to say that demons are purely immaterial spirits Can demons causally interact with the physical world and its inhabitants Can demons perform diabolical miracles Shandon Guthrie broaches new territory beginning with a rigorous defense for the existence of Satan and his cohorts He then advances and defends a model for how to understand their nature in terms of their ontology and causal powers No other book has attempted a full fledged natural diabolology on behalf of Christian orthodoxy This is a must read for anyone interested in the dark side of Christian theology and metaphysics
