By the Author of "Vital Magnetic Cure, Etc."** ,1876 **The Credibility of Science and Religion** Paul Weingartner,2025-01-27 Weingartner compares criteria and basic assumptions for the credibility of scientific and religious belief systems It is shown that mankind has access to basic knowledge about a higher spiritual power and knowledge by conscience about what is obligatory or forbidden This is defended by further axiomatizations on basic terms as natural goods natural and moral law and conscience Scientific and religious belief systems are then compared thoroughly and by logical deduction and verisimilitude One main argument is that every kind of belief system has an upper and a lower bound of credibility yet a degree of credibility that leads to the impossibility of rational justification for scientific belief systems must not be required from religious belief systems Further topics are internal and external consistency local refutation mutual complementation between religion and theory of evolution as well as a comparison of the five world religions leading to general features of religion It is shown that one main yet basic axiom of morality is the principle of charity Finally the book concludes with the credibility requirements of science towards religion and those of religion towards science Religion and Psychology Sylvan D. Toward a Humean True Religion Andre C. Willis, 2015-06-19 David Hume is traditionally seen as a devastating critic of religion He is widely read as an infidel a critic of the Christian faith and an attacker of popular forms of worship His reputation as irreligious is well forged among his readers and his argument against miracles sits at the heart of the narrative overview of his work that perennially indoctrinates thousands of first year philosophy students In *Toward a Humean True Religion* Andre Willis succeeds in complicating Hume's split approach to religion showing that Hume was not in fact dogmatically against religion in all times and places Hume occupied a watershed moment Willis contends when old ideas of religion were being replaced by the modern idea of religion as a set of epistemically true but speculative claims Thus Willis repositions the relative weight of Hume's antireligious sentiment giving significance to the role of both historical and discursive forces instead of simply relying on Hume's personal animus as its driving force Willis muses about what a Humean true religion might look like and suggests that we think of this as a third way between the classical and modern notions of religion He argues that the cumulative achievements of Hume's mild philosophic theism the aim of his moral rationalism and the conclusion of his project on the passions provide the best content for this true religion

the Soul Chander Behl,2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain s biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul
