Renner,2013-10-18 The evil child has infiltrated the cultural imagination taking on prominent roles in popular films television shows and literature This collection of essays from a global range of scholars examines a fascinating array of evil children and the cultural work that they perform drawing upon sociohistorical cinematic and psychological approaches The chapters explore a wide range of characters including Tom Riddle in the Harry Potter series the possessed Regan in William Peter Blatty s *The Exorcist* the monstrous Ben in Doris Lessing s *The Fifth Child* the hostile fetuses of Rosemary s *Baby* and *Alien* and even the tiny terrors featured in the reality television series *Supernanny* Contributors also analyse various themes and issues within film literature and popular culture including ethics representations of evil and critiques of society This book was originally published as two special issues of *Literature Interpretation Theory*      *The Book Buyer* ,1884 A review and record of current literature      Broadcasting Yearbook Issue ,1959      Little Horrors T.S. Kord,2016-07-25 Zombies werewolves and chainsaw wielding maniacs are tried and true staples of horror films But none can match the visceral dread evoked by a child with an innocent face and a diabolical stare Cinema s evil children attack our cherished ideas of innocence and our innocent bystander status as the audience A good horror film is a scary ride a devil child movie is a guilt trip This book examines 24 international films with discussions of another 100 that in effect indict viewers for crimes of child abuse and abandonment greed social and ecological negligence and political and war crimes and for persistent denial of responsibility for them all For 75 years evil children have ritually rebuked audiences and in playing on our guilt established a horror subgenre that might be described as a blood spattered rampage on an ethical mission      *Catalog of Copyright Entries. Fetzer,2003 The assassination of John F Kennedy has produced a wealth of dubious evidence and bizarre disappearances from faked photographs of Lee Harvey Oswald to the missing brain of the president Until now Abraham Zapruder s 27 second home movie capturing the murder of JFK has been considered sacrosanct This book bringing together all the leading authorities in the assassination research community challenges that notion These experts examined

the film from every imaginable perspective including the technical processes of video production the laws of physics contradictions by eyewitnesses and medical evidence Their conclusion is chilling but thoroughly documented that the Zapruder film has been doctored pointing to a meticulously planned high tech falsification of evidence of this momentous still unsolved event Published to coincide with the 40th anniversary of Kennedy s death contributors include David W Mantick the foremost expert on JFK assassination medical evidence and David Healy an authority on film processing Black and white photographs are included
