To only make matters worse is a boss who takes everything for granted , including advantage of Michael by dangling a promotion in front of his face . But when one late night trip to a Bed , Bath and Beyond store for a new remote control , Michael finds himself in the possession of a new kind of remote control , developed by an eccentric inventor . A remote control so significant that it allows Michael to be able to fast forward , rewind , pause and practically control all the events in his life . So much to an extent that it becomes a luxury for the overworked man who finally gets some quality time with his family and his life . But not everything lasts forever as Michael is about to find out , when the remote control begins to malfunction , causing Michael to deal with the consequences .
