Pragmatic Markers in Oral Narrative Montserrat González, 2004 This book presents the multifunctional nature of pragmatic discourse markers in English and Catalan oral narratives from the point of view of text linguistics and contrastive analysis It is argued that English and Catalan markers are distributed and operate differently at four different levels in the varied discourse structures of the text i e at the ideational the rhetorical the sequential and the inferential levels The results confirm the distinctions in functional systemic levels and indicate that the nature of the two languages has a direct influence on the presence and nature of markers in the texts The study is built up on a corpus of English and Catalan elicited narratives of native speakers adopting the sociolinguistic Labovian framework adapted to the situation of educated adults The study results in a better understanding of the contribution of pragmatic markers to the organization and the interpretation of oral texts bringing insights from relevance and cognitive approaches to text structure and moving from descriptive to theoretical levels of

analysis and discussion Linguistics and Language Behavior Abstracts ,2002 *Relating Events in Narrative* Ruth A. Berman,Dan Isaac Slobin,2013-06-17 This volume represents the culmination of an extensive research project that studied the development of linguistic form function relations in narrative discourse It is unique in the extent of data which it analyzes more than 250 texts from children and adults speaking five different languages and in its crosslinguistic typological focus It is the first book to address the issue of how the structural properties and rhetorical preferences of different native languages English German Spanish Hebrew and Turkish impinge on narrative abilities across different phases of development The work of Berman and Slobin and their colleagues provides insight into the interplay between shared possibly universal patterns in the developing ability to create well constructed globally organized narratives among preschoolers from three years of age compared with school children and adults contrasted against the impact of typological and rhetorical features of particular native languages on how speakers express these abilities in the process of relating events in narrative This volume also makes a special contribution to the field of language acquisition and development by providing detailed analyses of how linguistic forms come to be used in the service of narrative functions such as the expression of temporal relations of simultaneity and retrospection perspective taking on events and textual connectivity To present this information the authors prepared in depth analyses of a wide range of linguistic systems including tense aspect marking passive and middle voice locative and directional predications connectivity markers null subjects and relative clause constructions In contrast to most work in the field of language acquisition this book focuses on developments in the use of these early forms in extended discourse beyond the initial phase of early language development The book offers a pioneering approach to the interactions between form and function in the development and use of language from a typological linguistic perspective The study is based on a large crosslinguistic corpus of narratives elicited from preschool school age and adult subjects All of the narratives were elicited by the same picture storybook *Frog Where Are You* by Mercer Mayer An appendix lists related studies using the same storybook in 50 languages The findings illuminate both universal and language specific patterns of development providing new insights into questions of language and thought **Studying Speaking to Inform Second Language Learning** Diana Boxer,Andrew D. Cohen,2004-01-01 In a series of studies specially written for this volume *Studying Speaking to Inform Second Language Learning* offers the applied linguist research on spoken interaction in second and foreign languages and provides insights as to how findings from each of these studies may inform language pedagogy The volume offers an interweaving of discourse perspectives speech acts speech events interactional analysis pragmatics and conversational analysis Key Notions for Pragmatics Jef Verschueren,Jan-Ola Östman,2009-06-25 The ten volumes of *Handbook of Pragmatics Highlights* focus on the most salient topics in the field of pragmatics thus dividing its wide interdisciplinary spectrum in a transparent and manageable way While the other volumes select specific philosophical cognitive grammatical social cultural variational interactional or discursive angles this first volume reviews basic notions that

pervade the pragmatic literature such as deixis implicitness speech acts context and the like It situates the field of pragmatics broadly defined as the cognitive social and cultural science of language use in relation to a general concept of communication and the discipline of semiotics It also touches upon the non verbal aspects of language use and even ventures a comparison with non human forms of communication The introductory chapter moreover explains why a highly diversified field of scholarship such as pragmatics can be regarded as a potentially coherent enterprise

Here and There Jürgen Weissenborn, Wolfgang Klein, 1982-01-01 Deixis the rooting of utterances in the speech situation is one of the most salient universals of natural language The ways in which different languages link utterances to pragmatic factors such as speech time speech place and speech participants show a rich variation This makes deixis a particular fruitful domain for the study of universals language comparison and the relationship between language and reality This volume presents and discusses deictic systems of both Indo European and non Indo European languages including Russian Czech Spanish German standard and dialect Hungarian Chinese Japanese Hausa Swahili Hopi Eipo Tolai Diyari Focus is on spatial deixis but other deictic and demonstrative expressions are treated as well

Pindar's Verbal Art James Bradley Wells, 2009 Wells argues that the victory song is a traditional art form that appealed to a popular audience and served exclusive elite interests through the inclusive appeal of entertainment popular instruction and laughter Wells offers a new take on old Pindaric questions genre unity of the victory song tradition and epinician performance
