Multimedia Journalism Andy Bull,2010-02-26 Multimedia Journalism A Practical Guide offers clear advice on working

across multiple media platforms and includes guides to creating and using video audio text and pictures It contains all the essentials of good practice and is supported by an Companion Website at www.multimediajournalism.co.uk which demonstrates how to apply the skills covered in the book gives examples of good and bad practice and keeps the material up to date and in line with new hardware software methods of working and legislation The book is fully cross referenced and interlinked with the website which offers the chance to test your learning and send in questions for industry experts to answer in their masterclasses Split into three levels getting started building proficiency and professional standards this book builds on the knowledge attained in each part and ensures that skills are introduced one step at a time until professional competency is achieved This three stage structure means it can be used from initial to advanced level to learn the key skill areas of video audio text and pictures and how to combine them to create multimedia packages Skills covered include writing news reports features email bulletins and blogs building a website using a content management system measuring the success of your website or blog shooting cropping editing and captioning pictures recording editing and publishing audio reports and podcasts shooting editing and streaming video and creating effective packages creating breaking news tickers and using Twitter using and encouraging user generated content interviewing and conducting advanced online research subediting proofreading and headlining including search engine optimisation geo tagging geo coding and geo broadcasting Website access is free when the book or ebook is purchased The registration key is on the final page of all editions of the book and ebook and is also on the inside front cover of the paperback edition

How To Watch Television Ethan Thompson, Jason Mittell, 2013-09-16 Examines social and cultural phenomena through the lens of different television shows We all have opinions about the television shows we watch but television criticism is about much more than simply evaluating the merits of a particular show and deeming it good or bad Rather criticism uses the close examination of a television program to explore that program's cultural significance creative strategies and its place in a broader social context How to Watch Television brings together forty original essays from today's leading scholars on television culture writing about the programs they care and think the most about Each essay focuses on a particular television show demonstrating one way to read the program and through it our media culture The essays model how to practice media criticism in accessible language providing critical insights through analysis suggesting a way of looking at TV that students and interested viewers might emulate The contributors discuss a wide range of television programs past and present covering many formats and genres spanning fiction and non fiction broadcast and cable providing a broad representation of the programs that are likely to be covered in a media studies course While the book primarily focuses on American television important programs with international origins and transnational circulation are also covered Addressing television series from the medium's earliest days to contemporary online transformations of television How to Watch Television is designed to engender classroom discussion among television critics of all backgrounds

The High School Michael A. Messner, 2025 Taking over a century's

worth of yearbooks from his alma mater Salinas High School as a historical archive acclaimed sociologist Michael A Messner discovers a not so distant time when all the cheerleaders were boys and nearly equal attention was paid to boys and girls sports In the process he explores the changing meanings of high school athletics *Community Journalism* Jock Lauterer,2009-11-20 No matter how ambitious they may be most novice journalists don t get their start at the New York Times They get their first jobs at smaller local community newspapers that require a different style of reporting than the detached impersonal approach expected of major international publications As the primary textbook and sourcebook for the teaching and practice of local journalism and newspaper publishing in the United States *Community Journalism* addresses the issues a small town newspaper writer or publisher is likely to face Jock Lauterer covers topics ranging from why community journalism is important and distinctive to hints for reporting and writing with a community spin to design production photojournalism and staff management This third edition introduces new chapters on adjusting to changing demographics in the community and best practices for community papers Updated with fresh examples throughout and considering the newest technologies in editing and photography this edition of *Community Journalism* provides the very latest of what every person working at a small newspaper needs to know **The Internet for Orthopaedists** Don Johnson,Myles Clough,2006-05-11 This text focuses on the Internet needs of orthopaedic surgeons It educates them on how to use the web in their day to day practice Topics covered in depth include quick access to the Internet the history of the Internet terminology hardware and software search engines e mail CME browsers mailing lists medical informatics and creating web pages An extensive list of annotated orthopaedic specific Internet sites are also included This unique compilation of orthopaedic specific information forms an invaluable resource for every orthopaedic surgeon wishing to make effective and efficient use of the Internet in his her practice
