When Race Trumps Merit Heather Mac Donald, 2023-04-18 Does your workplace have too few black people in top jobs It s racist Does the advanced math and science high school in your city have too many Asians It s racist Does your local museum employ too many white women It's racist too After the Black Lives Matter protests of 2020 prestigious American institutions from the medical profession to the fine arts pleaded guilty to systemic racism How else explain why blacks are overrepresented in prisons and underrepresented in C suites and faculty lounges their leaders asked The official answer for those disparities is disparate impact a once obscure legal theory that is now transforming our world Any traditional standard of behavior or achievement that impedes exact racial proportionality in any enterprise is now presumed racist Medical school admissions tests expectations of scientific accomplishment in the award of research grants the enforcement of the criminal law all are under assault because they have a disparate impact on underrepresented minorities When Race Trumps Merit provides an alternative explanation for those racial disparities It is large academic skills gaps that cause the lack of proportional representation in our most meritocratic organizations and large differences in criminal offending that account for the racially disproportionate prison population The need for such a corrective argument could not be more urgent Federal science agencies now treat researchers skin color as a scientific qualification Museums and orchestras choose which art and music to promote based on race Police officers avoid making arrests and prosecutors decline to bring charges to avoid disparate impact on minority criminals When Race Trumps Merit breaks powerful taboos But it is driven by a sense of alarm supported by detailed case studies of how disparate impact thinking is jeopardizing scientific progress destroying public order and poisoning the appreciation of art and culture As long as alleged racism remains the only allowable explanation for racial differences we will continue tearing down excellence and putting lives as well as civilizational achievement at risk

member of one of the two teams so it rejects findings and researchers who question its ideological commitments The authors of this engaging volume also show us the way out They diagnose the social dynamics of bias and point to reforms that would give us the psychology that we need to address 21st century problems Jonathan Haidt Thomas Cooley Professor of Ethical Leadership NYU Stern School of Business and author of The Righteous Mind The boundaries of free speech censorship moral cultures social justice and ideological biases are among the many incendiary topics discussed in this book If you are looking for a deep dive into real world contemporary controversies Ideological and Political Bias in Psychology fits the bill The chapters are thoughtful and thought provoking Most readers will find something to agree with and something to rage at in almost every chapter It just may change how you think about some of these topics Diane F Halpern Professor of Psychology Emerita Claremont McKenna College and Past President American Psychological Association Unless the political left is always correct about everything in which case we wouldn't need to do research we could just ask a leftist the growing political monoculture of social science is a major barrier to our search for the truth This volume shows how ideological bias should be treated as a source of research error up there with classic methodological flaws like non random assignment and non blind measurement Steven Pinker Johnstone Professor of Psychology Harvard University and the author of Rationality An important read for academics curious about how their politics fashions beliefs that too often are uncritically taken for granted and for non academics wondering why we can t shake off the politics that so influences scientific work Vernon Smith Nobel Laureate in Economic Sciences and George L Argyros Chair in Finance and Economics Chapman University Advances and deepens empirically rigorous scholarship into biased political influences affecting academic and professional psychology Offers constructive solutions for minimizing undue political influences within psychology and moving the field forward Serves as a resource for psychological academicians researchers practitioners and consultants seeking to restore the principles of accurate science and effective practice to their respective areas of research Cutting School Noliwe Rooks, 2017-09-26 2018 Zora Neale Hurston Richard Wright Legacy Award Nonfiction Finalist A timely indictment of the corporate takeover of education and the privatization and profitability of separate and unequal schools published at a critical time in the dismantling of public education in America An astounding look at America's segregated school system weaving together historical dynamics of race class and growing inequality into one concise and commanding story Cutting School puts our schools at the center of the fight for a new commons Naomi Klein author of No Is Not Enough and This Changes Everything Public schools are among America's greatest achievements in modern history yet from the earliest days of tax supported education today a sector with an estimated budget of over half a billion dollars there have been intractable tensions tied to race and poverty Now in an era characterized by levels of school segregation the country has not seen since the mid twentieth century cultural critic and American studies professor Noliwe Rooks provides a trenchant analysis of our separate and unequal schools and argues that profiting from our nation s failure to provide a high quality education to all children has

become a very big business Cutting School deftly traces the financing of segregated education in America from reconstruction through Brown v Board of Education up to the current controversies around school choice teacher quality the school to prison pipeline and more to elucidate the course we are on today the wholesale privatization of our schools Rooks s incisive critique breaks down the fraught landscape of segrenomics showing how experimental solutions to the so called achievement gaps including charters vouchers and cyber schools rely on profit from and ultimately exacerbate disturbingly high levels of racial and economic segregation under the guise of providing equal opportunity Rooks chronicles the making and unmaking of public education and the disastrous impact of funneling public dollars to private for profit and nonprofit operations As the infrastructure crumbles a number of major U S cities are poised to permanently dismantle their public school systems the very foundation of our multicultural democracy Yet Rooks finds hope and promise in the inspired individuals and powerful movements fighting to save urban schools A comprehensive compelling account of what s truly at stake in the relentless push to deregulate and privatize Cutting School is a cri de coeur for all of us to resist educational apartheid in America Introduction to Public Health Mary-Jane Schneider, 2020-03-06 Introduction to Public Health Sixth Edition offers a thorough accessible overview of the expanding field of public health for students new to its concepts and actors Written in engaging nontechnical language this text explains in clear terms the multi disciplinary strategies and methods used for measuring assessing and promoting public health Racism in the Neoliberal Era Randolph Hohle, 2025-08-22 Racism in the Neoliberal Era explains how simple racial binaries like black white are no longer sufficient to explain the persistence of racism capitalism and elite white power The neoliberal era features the largest Black middle class in US history and extreme racial marginalization Racial languages change the meaning of public and private political economy s two fundamental terms Randolph Hohle focuses on how the origins and expansion of neoliberalism depended on a racial language of white private black public The language of neoliberalism explains how the white racial frame operates like a web of racial meanings that connect social groups with economic policy geography and police brutality When America was racially segregated elites consented to political pressure to develop and fund white public institutions The Black civil rights movement eliminated legal barriers that prevented racial integration The elite white response to Black civic inclusion was to deregulate the Voting Rights Act and banking policy Elites gave themselves tax cuts and implemented austerity measures on government programs to aid the poor They privatized neighborhoods schools and social welfare creating markets around poverty They oversaw the mass incarceration and systemic police brutality against people of color Citizenship was recast as a privilege instead of a right Neoliberalism is the result of an elite white meta strategy to maintain political and economic power This new edition is thoroughly revised and updated to take account of the further history and debates over neoliberalism in the Trump and Biden eras and the significant social and political discussions around race and racism policing housing health care and citizenship as they interconnect with the American neoliberal economic and political system
