50 Fantastic Things to Do with Cardboard Judit Horvath, 2017 _____ The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. In order to be able to think creatively, children have to be encouraged to use their imaginations and play autonomously. When setting up open ended learning opportunities that stimulate children to investigate possibilities, practitioners need easily accessible, cost effective resources. The rationale behind using cardboard boxes is the simple fact that they are cheap and open ended, meaning they can be easily sourced and simply transformed by both adults and children. A cardboard box is a resource that when left alone does nothing in particular, but comes to life in the hands of children, requiring them to use their imagination or to build on their past experiences. Boxes as open ended materials greatly enhance the play experience as they require children to bring their thoughts into the play experience in a deeper way.

The New Router Handbook Patrick Spielman, 1993. More than 1 000 photos and drawings showcase a brilliant array of how to use instructions and unusual jigs and aids.
