Responding to International Crime Geoff Gilbert, 2006-09-30 Following the wars in the former Yugoslavia and Rwanda and the events of 11 September 2001 awareness of international crimes has come to the forefront of public consciousness The very public responses seen in the establishment by the Security Council of the ad hoc tribunals and the international community coming together to create the International Criminal Court have done much to promote the idea that there should be no impunity for international criminals Nevertheless while those are incredibly significant steps in the attempt to combat international crime there is no way due to their jurisdictional competence that such bodies could ever hope to address all the various crimes that are committed that are not confined to a single domestic jurisdiction either by reason of their nature or transborder factors As such the response of the international community to international crime depends as much on extraterritorial criminal jurisdiction mutual legal assistance agreements extradition and other means of lawful rendition Furthermore given the fundamental rule that a person is innocent until proven guilty and that everyone within the jurisdiction of a State is owed certain basic minimum human rights guarantees responses to international crime cannot be without limitation Respect for the alleged transnational fugitive offender is as important a factor in responding to international crime as preventing impunity for genocide crimes against humanity war crimes and gross human rights violations Historic Waters in the Law of the Sea Clive Ralph Symmons, 2008 This work reassesses the doctrine and status of historic waters in the law of the sea particularly in the light of recent developments such as in *Alaska v US* 2005 which case forms a continuous theme throughout the book Detailed and critical examination is made of the alleged rules in international customary law on the topic including matters such as burden of proof **Industrial Policy and the World Trade Organization** Sherzod Shadikhodjaev, 2018-11-08 Highlights what national governments should know to properly conduct their industrial policies under the multilateral trading system *Caste-based Discrimination in International Human*

Rights Law Mr David Keane, 2013-02-28 With particular focus on the Hindu caste system this book represents a comprehensive analysis of the elimination of all forms of racial discrimination in international law. It evaluates the strategies that have informed the work of the United Nations in this area, mapping a new path that moves from standard setting to implementation. Combining legal analysis with the meaning and origin of caste, it explores the remedies human rights law can propose towards the prohibition of caste based discrimination and the abolition of the caste system itself. The book provides a benchmark on the achievements of the international community in combating all forms of racial discrimination and the policies that must inform future measures. With its clear and accessible style, this volume will be of interest to scholars of law and human rights as well as policy makers and practitioners working in this area. *Early Interactions Between South and Southeast Asia* Pierre-Yves Manguin, A. Mani, Geoff Wade, 2011 This book takes stock of the results of some two decades of intensive archaeological research carried out on both sides of the Bay of Bengal in combination with renewed approaches to textual sources and to art history. To improve our understanding of the trans cultural process commonly referred to as Indianisation, it brings together specialists of both India and Southeast Asia in a fertile inter disciplinary confrontation. Most of the essays reappraise the millennium long historiographic no man's land during which exchanges between the two shores of the Bay of Bengal led, among other processes, to the Indianisation of those parts of the region that straddled the main routes of exchange. Some essays follow up these processes into better known classical times or even into modern times, showing that the localisation process of Indian themes has long remained at work, allowing local societies to produce their own social space and express their own ethos. *Rights, Emergencies and Judicial Review* Imtiaz Omar, 2023-07-03 This book makes a significant contribution to the understanding of issues of comparative constitutionalism in emergent politics. Recurrent states of emergency in Malaysia, Sri Lanka and Bangladesh provide the background for a comparative examination of constitutional emergency powers, individual rights and judicial review. This work examines the extent to which the Court in these countries has performed its expected role, identifies problems in approaches to interpretation which have been adopted, and suggests alternatives to constitutional interpretation and judicial review. The alternatives explored are drawn from contemporary western jurisprudence, including those of Ronald Dworkin and writers of the Critical Legal Studies tradition. The juxtaposition of western jurisprudential development to issues of constitutionalism in the countries under survey is a bold attempt to seek some common ground in conceptualizing rights and techniques of juristic interpretation in western and eastern legal cultures. The theoretical framework of the study is well perceived, the arguments convincing. This carefully researched work makes a valuable and scholarly contribution to the study of comparative constitutional law and jurisprudence. *The International Law of Human Rights and States of Exception* Anna-Lena Svensson-McCarthy, 2021-09-27 This study demonstrates the extensive protection that international law provides to human rights even in the most serious of emergencies when they are particularly vulnerable. Based on a meticulous analysis of

preparatory works and practice under the International Covenant on Civil and Political Rights as well as the American and European Conventions on Human Rights and with a special chapter on the International Labour Organisation's approach to international labour standards and emergencies this book shows that respect for the rule of law and the concept of a democratic society are controlling parameters in any valid limitation on the enjoyment of human rights. It further shows that respect for human rights and the operation of institutions such as the Legislature and Judiciary are crucial to enabling societies to address and eventually remedy the root causes of emergency situations. The study recommends possible directions for the development of case law and suggests some practical means to help ensure that international legal requirements are in fact respected in emergencies.
