

REFLECTIVE JOURNAL NURSING STUDENT EXAMPLE

I was a young nurse, I was 25 years old, and I worked for four months at the Intensive Care Department at the Neurology Clinic. Everything was still new and difficult for me. Before that I worked for three years in Germany, in a private clinic in a completely different type of work, on the organization of patient admission and discharge. One day in the Intensive Unit we received an elderly gentleman, in a difficult state. The reception was from the Emergency Department, and nobody was accompanying the patient. He was 70 years old. No one asked for him, there were no data, he was left alone.

He was semi-conscious, and he constantly asked his mother. Whenever I get close to his bed, I heard him say, "Mom, Mom." I was so moved that I came to him at some point and said, "I'm your mom, and you are my bird." I started to carefully take care of him. I would bring some clothes from home. He had, for example, cold feet and I was putting him socks. I bonded with him more than with other patients. I was very sad that he was alone and there was no one. At that time, I promised myself that I would especially protect such ones. There were even more difficult moments of coping with death, and young people. I recall them and remember them all by their name. All of them influenced me to become a better, more responsible person, and look differently on life. When I became the head nurse of the hospital in 1991, I no longer had such an affair with patients, but I often came to the Intensive Unit, I could not separate myself from the Intensive. I had to see people. And now I like to come, I'm always stressful, and again from the beginning I admire the people who work in all our Intensive Units, so shaky and responsible work. I think the sisters are underpaid for what they do. And after so many years I can only say that nurses and technicians working in Intensive units can work anywhere.
