Ingles, 2023-09-25 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in Philippines deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country

maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in Philippines will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law Computers Helping People with Special Needs Klaus Miesenberger,Petr Peňáz,Makoto Kobayashi,2024-07-04

**Sports and Human Rights** Véronique Boillet, Sophie Weerts, Andreas R. Ziegler, 2024-06-06 Based on a series of themes and case studies this book aims to illustrate the impact of sports policies and practices on individuals and their identities and to analyze the potential solutions offered by International human rights law IHRL for these infringements It bridges the gap between IHRL and sports studies and will be useful to scholars in both fields especially those unfamiliar with each other's work Furthermore by investigating the context of sport and its governance this collection offers a series of valuable insights enabling the development of an interpretation of law in context for legal scholars in the field of human rights As the governance and regulation of sport are seen as illustrations of other forms of normativity this book also contributes to the conversation about the transnational dimension of

law and legal orders In this respect it illustrates that normative autonomy in the field of sport associated with the idea of *lex sportiva* tends to be relative regarding IHRL The sporting environment is not disconnected from major contemporary social issues it constitutes a public space in which injustices can be denounced but also the theater in which prejudices are perpetuated against various parties such as athletes or workers IHRL commonly addresses attacks on individual dignity and social justice issues by guaranteeing rights to individuals and offering them protection mechanisms In this context can IHRL solve the problems encountered in the sporting environment This is the question that animates this volume This is an open access book     Entrepreneurship and the Community Vanessa Ratten, 2019-08-26 Entrepreneurship is the result of various contextual factors in the community which are shaped by social challenges and business needs Recent research efforts have focused on the dynamics of communities and how they facilitate entrepreneurship among a diverse group of people and organizations This book highlights research on the importance of communities and their role in providing an entrepreneurial ecosystem that promotes innovation and business activities Adopting a multidisciplinary perspective it explores what it takes to create an entrepreneurial community that fosters creativity Sharing valuable insights it will enhance readers understanding of how entrepreneurship is formed by and exists in communities     The Linguistics of Football Eva Lavric, 2008
