

SPORTSTER / BUELL HOP-UP GUIDE

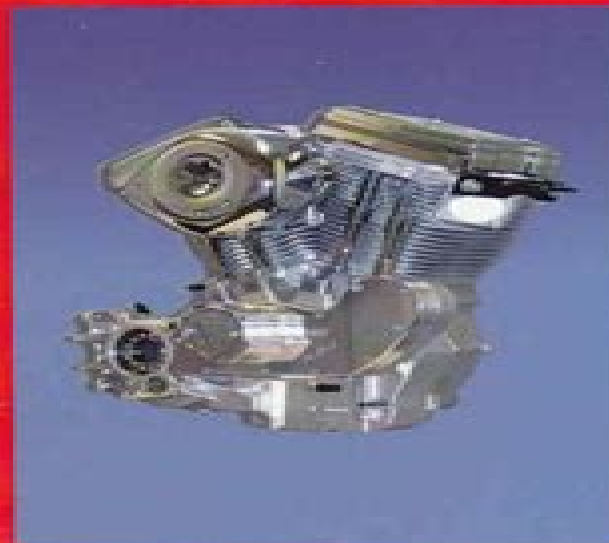

From four-speed Evos to five-speed Buells, this book is your bible to Sportster performance. Whether your intent is to improve the existing factory parts or install something from the aftermarket, Kip explains not just which parts to buy, but why.

Fourteen chapters cover: History, Planning, Exhaust, Induction, Ignition, Charging and Starting, Gearing, Valvetrain, Cams, Heads, Cylinders and Pistons, Flywheels, Oil, Transmission and Clutch. Each chapter is a compendium of facts and figures; including all the possible four and five-speed gear ratios, and the relative strength of four and five-speed engine cases from both the factory and the aftermarket.

Not just another hop-up manual, the Sportster/Buell Engine Hop-Up Guide includes an in-depth analysis of important topics left out of other books. Issues like oil and oil friction, combustion-chamber design, camshaft trade-offs, valvegear weight and much more.

- Carburetor Selection
- Ignition choice
- Choosing an exhaust
- Final gearing choices
- Roller rocker arms
- Pistons: cast or forged
- Pros & cons of strokers
- Differences in four and five-speed cases
- Oil control
