Spaces in-between Mark Luccarelli, Sigurd Bergmann, 2015-10-05 Spaces in between goes beyond the emphasis on externalities signalled by the term environment to address the isolation of modern technological culture from nature Solutions require more than an awareness of natural surroundings and human destructiveness. We think in terms of the reconceptualization re design and renegotiation of space. The book is concerned with social practices belief systems urban designs the organization and representation of landscapes and modes of living. These aspects of spatiality suggest how to conceive and practice the intermingling of nature and culture and how to develop public commitment to such practices. In the process we show how concern for the environment as an aspect of space helps us to reconceive and reinterpret what it means to be human. Internet Drama and Mystery Television Series, 1996-2014.
