Resources in Education , 1998 **Integrating Study Abroad Into the Curriculum** Elizabeth Brewer, Kiran Cunningham, 2023-07-03 With the increased interest in study abroad from government educators employers and students the question is is study abroad engendering the desired intercultural competencies and intellectual development To achieve this goal this book proposes two strategies structure study abroad to bridge the separation of academic learning from experiential and intercultural learning and integrate study abroad with the undergraduate curriculum In proposing this integration the editors take into account the need for institutional change and recognize faculty members concerns about maintaining the integrity of the curriculum teaching in areas outside their expertise and keeping up with ever evolving institutional missions This book opens with two chapters presenting different theoretical perspectives relevant to the

integration of study abroad into the curriculum The following nine chapters provide examples from a variety of disciplines from anthropology and religious studies to literature urban studies biology and public health and within such contexts as distance learning service learning and the senior thesis The concluding chapter considers faculty development activities and institutional structures and policies that support curriculum integration While the examples are drawn from Beloit College and Kalamazoo College liberal arts colleges with substantial study abroad enrollments and nationally recognized for their innovative practices readers will recognize they are easily adaptable to their own institutions The two colleges achieved their curricular innovations with limited financial resources and in the context that most of their students are dependent on financial aid The transformational ideas and practices described here provide material for reflection and campus conversations for anyone concerned with developing global citizens and well educated students and offer a blueprint for implementation The Indiana School Journal, 1893 *Cracking the AP U.S. History Exam, 2020 Edition* The Princeton Review, 2020-02-11 Make sure you're studying with the most up to date prep materials Look for the newest edition of this title Princeton Review AP U S History Prep 2021 ISBN 9780525569695 on sale August 2020 Publisher's Note Products purchased from third party sellers are not guaranteed by the publisher for quality or authenticity and may not include access to online tests or materials included with the original product **A Guide to Teaching in the Active Learning Classroom** Paul Baepler, J. D. Walker, D. Christopher Brooks, Kem Saichaie, Christina I. Petersen, 2023-07-03 While Active Learning Classrooms or ALCs offer rich new environments for learning they present many new challenges to faculty because among other things they eliminate the room's central focal point and disrupt the conventional seating plan to which faculty and students have become accustomed The importance of learning how to use these classrooms well and to capitalize on their special features is paramount The potential they represent can be realized only when they facilitate improved learning outcomes and engage students in the learning process in a manner different from traditional classrooms and lecture halls This book provides an introduction to ALCs briefly covering their history and then synthesizing the research on these spaces to provide faculty with empirically based practical guidance on how to use these unfamiliar spaces effectively Among the questions this book addresses are How can instructors mitigate the apparent lack of a central focal point in the space What types of learning activities work well in the ALCs and take advantage of the affordances of the room How can teachers address familiar classroom management challenges in these unfamiliar spaces If assessment and rapid feedback are critical in active learning how do they work in a room filled with circular tables and no central focus point How do instructors balance group learning with the needs of the larger class How can students be held accountable when many will necessarily have their backs facing the instructor How can instructors evaluate the effectiveness of their teaching in these spaces This book is intended for faculty preparing to teach in or already working in this new classroom environment for administrators planning to create ALCs or experimenting with provisionally designed rooms and for faculty developers helping teachers

transition to using these new spaces
