The Condition of Education 2013 summarizes important developments and trends in education using the latest available data The report presents indicators on the status and condition of education The indicators represent a consensus of professional judgment on the most significant national measures of the condition and progress of education for which accurate data are available To help inform policymakers and the public about the progress of education in the United States Congress has mandated that the National Center for Education Statistics NCES produce an annual report The Condition of Education This year's report presents 42 indicators of important developments and trends in U S education These indicators focus on population characteristics participation in education elementary and secondary education and postsecondary education Condition shows in 2012 about 90 percent of young adults ages 25 to 29 had a high school diploma or its equivalent and 33 percent had a bachelor's degree or higher As in previous years annual median earnings in 2011 were higher for those with higher levels of education for example 25 to 34 year olds with a college degree earned over twice as much as high school dropouts The Condition of Education 2013 includes the latest data available on these and more key indicators As new data are released the indicators will be updated and made available Along with these indicators NCES produces a wide range of reports and data to help inform policymakers and the American public about trends and conditions in U S education As this year's In 2011 almost two thirds of 3 to 5 year olds were enrolled in preschool and nearly 60 percent of these children were in full day programs At the elementary and secondary level there were about 50 million public school students in 2011 a number that is expected to grow to 53 million in the next decade Of these students nearly 2 million attended charter schools Postsecondary enrollment in 2011 was at 21 million students including 18 million undergraduate and 3 million graduate students NCES's newest data on elementary and secondary schools show that about one in five public schools was considered high poverty in 2011 meaning that 75 percent or more of their enrolled students qualified for free or reduced price lunch up from about one in eight in 2000 In school year 2009-10 some 3.1 million public high school students or 78.2 percent graduated on time with a regular diploma And in 2011 about 68 percent of recent high school completers were enrolled in college the following fall Meanwhile the status dropout rate or the percentage of 16 to 24 year olds who are not enrolled in school and do not have a high school diploma or its equivalent declined from 12 percent in 1990 to 7 percent in 2011 At 4 year colleges in 2011 nearly 90 percent of full time students at public and private nonprofit institutions were under the age of 25 However only about 29 percent of full time students at private for profit colleges were while 39 percent were between the ages of 25 to 34 and another 32 percent were 35 and older About 56 percent of male students and 61 percent of

female students who began their bachelor s degree in the fall of 2005 and did not transfer had completed their degree by 2011 In that year there were 1 7 million bachelor s degrees and over 700 000 master s degrees awarded *2012-2013 College Admissions Data Sourcebook Midwest Edition , Resources in Education ,2001 How to Get Money for College 2013* Peterson's,2012-09-11 *How to Get Money for College Financing Your Future Beyond Federal Aid 2013* is a great resource for anyone looking to supplement his or her federal financial aid package with aid from colleges and universities This comprehensive directory points the reader to complete and accurate information on need based and non need gift aid loans work study athletic awards and more This eBook offers profiles of more than 2 400 schools financial aid awards including types of aid percentages of students applying for and receiving aid and average aid packages comprehensive overview of the financial aid process common financial aid questions samples of financial aid award letters and how to file the FAFSA and CSS Financial Aid PROFILE **The Condition of Education ,2013 Crossing the Bridge of the Digital Divide** Anthony H. Normore,Antonia Issa Lahera,2018-09-01 *Crossing the Bridge of the Digital Divide A Walk with Global Leaders* explores the combined effect of the rapid growth of information as an increasingly fragmented information base a large component of which is available only to people with money and or acceptable institutional affiliations In the recent past the outcome of these challenges has been characterized as the digital divide between the information haves and have nots along racial and socio economic lines that seem to widen as time passes To address the issues of digital equity and digital inequality in an effort to bridge the digital divide educational scholars researchers and practitioners are in positions to ensure equitable opportunities are made available for people of all ages races ability sexual orientation and ethnicity in support of social justice for bridging the digital divide The digital divide addresses issues concerning equal opportunity equity and access that have an effect on the development of marginalized and otherwise disenfranchised populations within and across systems nationally and internationally The contributing authors representing Unites States Canada South Africa New Zealand and the UK posit that education institutions can serve as the bridge to close the digital divide for students who do not have access to information technology in their homes At a time when more computers are made available in schools than ever before the digital divide continues to widen and fewer people in the lowest SES groups are given the opportunity to join the world of computer technology and the internet As a result the influence of leadership activity on institutional racism gender discrimination inequality of opportunity inequity of educational processes digital exclusion and justice have gained currency and attention The contributing national and international authors examine the digital divide in terms of social justice leadership equity and access It is within this context that the authors offer discussions from a lens of their choice i e conceptual review of literature epistemological etc By adopting an educational approach to bridging the digital divide researchers and practitioners can connect and extend long established lines of conceptual and empirical inquiry aimed at improving organizational practices and thereby gain insights that might be otherwise overlooked or assumed This holds great

promise for generating refining and testing theories of leadership for equity and access and helps strengthen already vibrant lines of inquiry on social justice

A Theory of Music Analysis Dora A. Hanninen, 2012 This book introduces a theory of music analysis that one can use to explore aspects of segmentation and associative organization in a wide range of repertoire including Western classical music from the Baroque to the present with potential applications to jazz and popular music and some non Western musics Rather than a methodology the theory provides analysts with precise language and a broad flexible conceptual framework through which they can formulate and investigate questions of interest and develop their own interpretations of individual pieces and passages The theory begins with a basic distinction among three domains of musical experience and discourse about it the sonic psychoacoustic the contextual or associative sparked by varying degrees of repetition and the structural guided by a specific theory of musical structure or syntax invoked by the analyst A comprehensive presentation of the theory with copious musical illustrations is balanced with close analyses of works by Beethoven Debussy Nancarrow Riley Feldman and Morris Dora A Hanninen is professor of music theory at the University of Maryland She received the 2010 Outstanding Publication Award from the Society for Music Theory

Contemporary Research on Intertextuality in Video Games Duret, Christophe, Pons, Christian-Marie, 2016-06-16 Culture is dependent upon intertextuality to fuel the consumption and production of new media The notion of intertextuality has gone through many iterations but what remains constant is its stalwart application to bring to light what audiences value through the marriages of disparate ideology and references Videogames in particular have a longstanding tradition of weaving texts together in multimedia formats that interact directly with players Contemporary Research on Intertextuality in Video Games brings together game scholars to analyze the impact of video games through the lenses of transmediality intermediality hypertextuality architextuality and paratextuality Unique in its endeavor this publication discusses the vast web of interconnected texts that feed into digital games and their players This book is essential reading for game theorists designers sociologists and researchers in the fields of communication sciences literature and media studies
