Pine,2013-07-16 The writing of this book was both a spiritual and intellectual journey It took more than ten years to complete while having to be revised and updated constantly This is no holds barred literature where the author says what he means and means what he says He does not mintz his words The Conscious Planet thinks outside the box and breaks all the rules of traditional thinking Sometimes this information can be brutally honest or painfully real This author is not trying to win any popularity contest He tells it like it really is and doesnt care what anyone thinks The Conscious Planet is what the government and big corporations who control it dont want you to know It is the truth about the truth and nothing but the truth so help me In the modern world people only know what multinational corporations want them to know not what they should know And it is this tainted knowledge which is creating a society of pathetic drones who like poor doomed sheep are too busy just trying to survive to see that the wool is being pulled over their eyes while being led to slaughter Because these corporate imperatives are being paid for at the expense of the future of mankind Before you patronize any product be conscious about what its doing to your health to the earth and how it will affect future generations Skeptics have warned the author that this book will receive nominal success that it represents a small niche market and not everyone would be interested in such literature And in retort to this assertion it should be acknowledged that yes it is sadly true that not

everyone would be interested in this book because the information herein may not pertain directly to their life or general well being So in understanding who would be interested in this book lets narrow it down by eliminating the types of individual who would not directly benefit x 1 People who are immortal Yes these people might not care about this book heck if you were immortal you might eat Twinkies and cheese burgers all day long 2 People who have another planet to live on This is true why would they care if the world goes to hell in a hand basket See Ya Well lucky them however for the other seven billion people who inhabit the planet earth who are not immortal and who dont have another planet to live on then this book is absolutely the most important book they may ever read Become a part of The Conscious Planet **Nutrition** Sharon K. Zoumbaris,2009-07-23 Nutrition addresses the most hotly debated topics in the news today obesity food safety irradiation and vegetarianism and also describes the currently accepted principles of good nutrition for men women and children Despite the abundance of advice on food and diet more Americans are obese than ever before diabetes rates are skyrocketing and more foods are recalled due to contamination It is high time for non biased answers to the question of what is healthy and safe to eat Nutrition provides those answers The book explains basic guidelines for healthy eating along with the government s role in nutrition It examines the issues of food safety and technology and the debates about genetically modified foods organic foods and vegetarian dining Food bans such as those on trans fats are discussed as are vitamins and supplements After tracing the history of the study of nutrition and identifying principal researchers the book examines seven major controversies in nutrition today This basic guide to healthy eating will give both students and adults the tools they need to choose a diet that is healthy and safe **Wine, Food & the Arts, Volume I** The American Institute of Wine & Food,2004-04-01 From birth until death food and drink are the keystones of human existence as eating and drinking have always sustained our imaginations as well as our bodies feeding our common need for art In these volumes the American Institute of Wine Food gathers together the imaginative fare of writers artists chefs food historians and children to celebrate and illustrate gastronomy the art and science of eating Writings from Michael Jackson Sharon Olds Michael Dorris Margaret Visser Charles Simic Carol Field and David Mas Masumoto among others join with the art of painters and photographers such as Frida Kahlo Tessa Traeger Diego Rivera Gary Kelley Jeffrey Alford and Naomi Duguid Together these offerings represent some of the best culinary works of past and present and produce a feast for both the eyes and the mind **Guide to Occupational Choice and Training** Walter James Greenleaf,1947 **Living a Real Life with Real Food** Beth Warren,2014-02-04 When navigating the world of health and wellness we desperately seek nutrition advice from newspapers magazines our know it all neighbor our grandmothers old wives tales the muscular guy at the gym or expert health care professionals With good intentions to become healthier we find ourselves confused by the conflicting messages that arise from mantras to eat this not that These complicated trends leave us at a loss of what to eat to become or stay healthy and derail our nutritious path During the journey toward better health the simple enjoyment of real food gets lost to the cutting
