True Witness Cops Courts Science And The Battle Against Misidentification:

True Witness James Doyle, 2025-06-25 Honest but mistaken eyewitnesses are the leading cause of wrongful convictions in the United States. As the innocent go to prison, their lives are shattered as the criminal goes free; the public remains vulnerable. With a vivid cast of brilliant scientists, street-wise cops, and former prosecutors all haunted by the legacy of wrongful convictions, some directly involved with one Doyle, sheds light on the intersection of personal ambition, legal and political principles, and scientific inquiry. He highlights real possibilities for improved identification, their challenges to the legal tradition, and persuasively argues that the promises of improved justice must be realized before another wrongful conviction lets the guilty go free. This is an important look at a pressing issue in the news with every exoneration. **Expert**

Witness in the Legal System: A Scientist's Search for Justice , Psychological Science and the Law Neil Brewer, Neil Douglas Brewer, Amy Bradfield Douglass, 2019-04-04 Psychological research can provide constructive explanations of key problems in the criminal justice system and can help generate solutions. This state-of-the-art text dissects the psychological processes associated with fundamental legal questions: Is a suspect lying? Will an incarcerated individual be dangerous in the future? Is an eyewitness accurate? How can false memories be implanted? How do juries, experts, forensic examiners, and judges make decisions, and how can racial and other forms of bias be minimized? Chapters offer up-to-date reviews of relevant theory, experimental methods, and empirical findings. Specific recommendations are made for improving the quality of evidence and preserving the integrity of investigative and legal proceedings. **The Behavioral Foundations**
