Polymer Nanocomposites for Advanced Engineering and Military Applications Ramdani, Nouredine, 2019-04-01 The field of polymer nanocomposites has become essential for engineering and military industries over the last few decades as it applies to computing sensors biomedical microelectronics hard coating and many other domains Due to their outstanding mechanical and thermal features polymer nanocomposite materials have recently been developed and now have a wide range of applications Polymer Nanocomposites for Advanced Engineering and Military Applications provides emerging research on recent advances in the fabrication methods properties and applications of various nano fillers including surface modification methods and chemical functionalization Featuring coverage on a broad range of topics such as barrier properties biomedical microelectronics and matrix processing this book is ideally designed for engineers industrialists chemists government officials military professionals practitioners academicians researchers and students *ECRM2016-Proceedings of the 15th European Conference on Research Methodology for Business Management* " Vladlena Benson, Fragkiskos Filippaios, 2016-05-20 **Higher Education Pathways** Ashwin, Paul, Case, Jennifer M., 2018-12-14 In what ways does access to undergraduate education have a transformative impact on people and societies What conditions are required for this impact to occur What are the pathways from an undergraduate education to the public good including inclusive economic development These questions have particular resonance in the South African higher education context which is attempting to tackle the challenges of widening access and improving completion rates in a system in which the segregations of the apartheid years are still apparent Higher education is recognised in core legislation as having a distinctive and crucial role in building post apartheid society Undergraduate education is seen as central to addressing skills shortages in South Africa It is also seen to yield significant social returns including a consistent positive impact on societal institutions and the development of a range of capabilities that have public as well as private benefits This book offers comprehensive contemporary evidence that allows for a fresh engagement with these pressing issues Transactions on Engineering Technologies Sio-Iong Ao, Haeng-Kon Kim, Mahyar A. Amouzegar, 2021-01-04 This book contains a selection of revised and extended research articles written by prominent researchers participating in the 27th World Congress on Engineering and Computer Science WCECS 2019 which was held in San Francisco USA on October 22 24 2019 Topics covered include engineering mathematics electrical engineering communications systems computer science chemical engineering systems engineering manufacturing engineering and industrial applications With contributions carefully chosen to represent the most cutting edge research presented during the conference the book contains some of the state of the art in engineering technologies and the physical sciences and their applications and serves as a useful reference for researchers and graduate students working in these fields Corrosion Inhibitors, Principles and Recent Applications Mahmood Aliofkhazraei, 2018-04-04 To protect metals or alloys from corrosion some methods can be used such as isolating the

structure from the aggressive media or compensating the loss of electrons from the corroded structure The use of corrosion inhibitors may include organic and inorganic compounds that adsorb on the metallic structure to isolate it from its surrounding media to decrease oxidation reduction processes This book collects new developments about corrosion inhibitors and their recent applications

Graphene-Based Materials as Adsorbents for Wastewater Decontamination

Suprakas Sinha Ray,Jonathan Tersur Orasugh,Lesego Tabea Temane,Sarah Constance Motshekga,2024-10-07 This book aims to provide a fundamental grasp of graphene based materials GAMs and their adsorption process The effect of diverse process parameters including pH temperature agitation competing ions etc on the adsorption performance of GAMs as well as their recent and relevant applications in biomedical fields are discussed The current challenges and future outlook have been addressed as an independent chapter and the recyclability of these adsorbent materials has also been covered Features Focuses on graphene based materials as adsorbents to remove contaminants from wastewater Includes detailed computational and statistical analyses and cost comparison points Compares the performance of graphene based materials as adsorbents in the context of various other reported adsorbents including other 2D materials such as WS₂ and BN Provides fundamental comprehension of the graphene based materials adsorption process Discusses the recyclable nature of graphene based materials as well as approaches used This book has been aimed at graduate students and researchers in wastewater treatment environmental materials and chemical engineering

Exploring the Role of ICTs in Healthy Aging Mendes, David,Fonseca, César,Lopes, Manuel José,García-Alonso, José,Murillo, Juan Manuel,2020-05-31 Technological innovation continues to be present in all areas of our lives offering seemingly endless possibilities As technology is increasingly implemented in healthcare applications it is necessary to understand whether users respond to a predefined organizational strategy of model of care or whether they will become wholly dependent on the healthcare technology This understanding is especially crucial when dealing with the possibility of generating inequities especially with individuals that are elderly Exploring the Role of ICTs in Healthy Aging is a collection of innovative research that proposes the detailed study of a strategic framework for the development of technological innovation in healthcare and for its adoption by health organizations While highlighting topics including emotional health quality of life and telemedicine this book is

ideally designed for physicians nurses hospital staff medical professionals home care providers hospital administrators academicians students and researchers Moreover the book will provide insights and support executives concerned with the management of expertise knowledge information and organizational development in different types of healthcare units at various levels *Process-Structure-Property Relationships in Metals* Soran Biroasca,2018-07-02 This book is a printed edition of the Special Issue Process Structure Property Relationships in Metals that was published in Metals **History of South Africa** Thula Simpson,2022-09-01 South Africa was born in war has been cursed by crises and ruptures and today stands on a precipice once again This book explores the country s tumultuous journey from the Second Anglo Boer War to 2021 Drawing on diaries letters oral testimony and diplomatic reports Thula Simpson follows the South African people through the battles elections repression resistance strikes insurrections massacres crashes and epidemics that have shaped the nation Tracking South Africa s path from colony to Union and from apartheid to democracy Simpson documents the influence of key figures including Jan Smuts Nelson Mandela Steve Biko P W Botha Thabo Mbeki and Cyril Ramaphosa He offers detailed accounts of watershed events like the 1922 Rand Revolt the Defiance Campaign Sharpeville the Soweto uprising and the Marikana massacre He sheds light on the roles of Gandhi Churchill Castro and Thatcher and explores the impact of the World Wars the armed struggle and the Border War Simpson s history charts the post apartheid transition and the phases of ANC rule from Rainbow Nation to transformation state capture to New Dawn Along the way it reveals the divisions and solidarities of sport the nation s economic travails and painful pandemics from the Spanish flu to AIDS and Covid 19

Performance Analysis of Photovoltaic Systems with Energy Storage Systems Adel A. Elbaset,Saad Awad Mohamed Abdelwahab,Hamed Anwer Ibrahim,Mohammed Abdelmowgoud Elsayed Eid,2019-06-27 This book discusses dynamic modeling simulation and control strategies for Photovoltaic PV stand alone systems during variation of environmental conditions Moreover the effectiveness of the implemented Maximum Power Point Tracking MPPT techniques and the employed control strategy are evaluated during variations of solar irradiance and cell temperature The simulation results are based on the reliability of the MPPT techniques applied in extracting the maximum power from the PV system during the rapid variation of the environmental conditions The authors review two MPPT techniques implemented in PV systems namely the perturb and observe P O MPPT Technique and the Incremental Conductance InCond MPPT technique These two MPPT techniques were simulated by the MATLAB Simulink and the results response of the PV array from voltage current and power are compared to the effect of solar irradiation and temperature change **Sustainable Development in Africa** Walter Leal Filho,Rudi Pretorius,Luiza Olim de Sousa,2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors

related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies

Recent Development in Energy Conversion Systems

Sunday Olayinka Oyedepo, Fidelis Ibiang Abam, Olusegun David Samuel, Oluseyi Olanrewaju Ajayi, Abimbola Patricia Popoola, Diana-Andra Borca-Tasciuc, 2024-03-15 In this industrial and technological age energy plays a principal role in sustainable development This is connected to issues regarding availability production processes utilization and environmental impact Due to the increased rate of population growth the energy demand in the entire world is getting to the level that it may not be sustained in the nearest future if drastic action is not taken to address the situation especially from research and development perspectives None of the millennium development goals MDGs can be completed without considerable improvements in the quality and quantity of energy services in developing countries according to the United Nations Development Programme UNDP Based on this fact UNDP is making efforts especially in developing countries to ensure that people have access to sustainable sources of clean reliable and affordable energy since every aspect of human development is highly impacted by this vital resource

Feeling lives: An intersectional exploration of past experiences and present living

Lindsay Clowes, LJ Theo, Nadia Sanger, Landa Mabenge, Sisa Ngabaza, 2023-11-15 We each make sense of the world through our embodied feeling lives We do it through the social groupings contexts and processes which history rather

than biology presents and assigns to us In this collection we aim to illustrate how these embodied feelings and emotions underpin contemporary theorising by sharing reflective autobiographical writing by individuals from a wide range of backgrounds and contexts This somewhat unruly collection unsettles conventional academic writing precisely because authors have grounded themselves in the tangible and the personal rather than in abstract theory We hope that readers might see aspects of their own lives in some of these stories develop better understandings of lives that are experienced very differently and start or continue to theorise their own lives
