by all characters involved Readings in Sexualities from Africa Rachel Spronk, Thomas Hendriks, 2020-02-04 Images and stories about African sexuality abound in today's globalized media. Frequently, old stereotypes and popular opinion inform these stories, and sex in the media is predominately approached as a problem in need of solutions and intervention. The authors gathered here refuse an easy characterization of African sexuality and instead seek to understand the various erotic realities, sexual practices, and gendered changes taking place across the continent. They present a nuanced and comprehensive overview of the field of sex and sexuality in Africa to serve as a guide through the quickly expanding literature. This collection offers a set of texts that use sexuality as a prism for studying how communities coalesce against the canvas of larger political and economic contexts and how personal lives evolve therein. Scholars working in Africa, the U.S., and Europe reflect on issues of representation, health, and bio-politics, same-sex relationships, and identity. Transactional economies of sex, religion, and tradition, and the importance of pleasure and agency. This multidimensional reader provides a comprehensive view of sexuality from an African perspective.

Every chapter is an invitation to take your pleasure seriously and own it completely. Thoughtful, dirty, unapologetically queer. This is not just sex. This is *The Art of Erotic Power*.

Probing the Mind to Free the Soul Stephen G. Fowler, 2017-05-25 Christian theology presents an overly simplistic portrayal of the mind and nature of man: his needs, his longings, his beliefs, and his aspirations for God. A psychoanalytic protest theology aims at bringing psychoanalytic complexity regarding the mind to theology. Organized Christianity has failed to account for how the unconscious influences interpretations of Scripture and also how application of Scripture to lived life can be damaging if complex unconscious factors are not considered in theology. This book attempts to employ psychoanalytic insights in the exploration of critically important themes addressed by theology. Among them: morality and conscience, autonomy and destiny, and relationship and sexuality, including the sexuality of God, suffering, and law along with its correlation with death. This is intended to serve an integrative, constructive purpose. Both classical psychoanalysis and Christian Scriptures conceptualize sexuality in its large sense as residing at the core of the mind of mankind. Christianity has tended to cope with sexuality by adopting a notion of attainable sexual purity, a myth that this work seeks to expose and dismantle with a view to enabling the church to more effectively and compassionately engage with real people whose sexuality is characteristically complicated and troublesome.
