FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt Twenty-Twenty Hindsight Mosiuoa Sekese,2013

Twenty twenty hindsight means perfect understanding of events only after they have happened In his book Mosiuoa Sekese looks back on his life in the old and new South Africa and gives his own perceptive interpretation of the past events Sekese suffered discrimination and prejudice under the old apartheid government as well as the new democratic regime His story is highly personal but provides the reader with unique insights into the social and educational challenges that South Africa continues to grapple with I had a quick read and I fi nd the content heartbreaking but fascinating Especially as a white South African you are drawing me into a world that I always knew existed but which few people have the guts and conviction to paint into words Louise Heystek Emerton CEO Wordwise Khuluma Awethu **South African Journal of Higher Education** ,2007 *Christians in the Cities of Johannesburg and Pretoria* Stéphan de Beer,2025-07-24 Looks at Christianity in the megacity of Johannesburg Pretoria exploring how it has shaped the city and its society *Developing University Entrepreneurial Ecosystems In Sub-saharan Africa* Dzidziso Samuel Kamuriwo,Sara Jones,Neil Marshall,Mary Kinoti,2024-12-13 What is the status of university entrepreneurship and innovation ecosystems in Sub Saharan Africa SSA How could they be strengthened so that students academic staff and relevant stakeholders that are part of the ecosystems can best produce better quality ventures i e that can employ more people or make venture founders more employable This book provides a current review of the state of teaching entrepreneurship and its impact on SSA and illuminates different ways universities are strengthening their university entrepreneurship and innovation ecosystems Different approaches in the book fall into four thematic sections namely 1 the exploitation of digital infrastructure to design and deploy virtual accelerators so as to enhance both scale and reach of entrepreneurship education 2 the use of a social entrepreneurship lens

to illuminate how key stakeholders can work together as well as communicate policy changes that need to be incorporated for effective implementation of ecosystems 3 ecosystem developments that focus exploiting sector specific knowledge and expertise and lastly 4 ecosystem design considerations such as factors for effective ecosystem design and curriculum development in SSA Significant outcomes from the book are highlights of how academic entrepreneurship can be harnessed to overcome challenges facing SSA The book showcases how digital technologies can be exploited to mainstream entrepreneurship and innovation within and beyond the universities thus improving access to quality education and resources to a much broader audience access In addition the book demonstrates how to effectively engage all relevant stakeholders in an entrepreneurship ecosystem including how to accurately identify all key stakeholders and assess their contextual needs in SSA education settings so as to inform ecosystem development strategies Finally the book showcases different approaches to entrepreneurship curriculum developments efforts what it takes to develop pilot or enhance curriculum in SSA as well as how provision of more support for students with specific mechanisms can be offered including different ways of including mentoring coaching or incubation and building academic industry partnership as a way of supporting students

Biocomposites for Industrial Applications Chandrasekar Muthukumar, Senthil Muthu Kumar Thiagamani, Senthilkumar Krishnasamy, Jyotishkumar

Parameswaranpillai, Suchart Siengchin, 2023-09-18 *Biocomposites for Industrial Applications Construction Biomedical Transportation and Food Packaging* reviews the properties and performance of these materials with a focus on their intended applications. Sections cover their properties and performance including processing conditions, structure and property relations. For biomedical applications, researchers need a broad understanding of conceptual design, physico-chemical properties and cytotoxicity of orthopedic implants. As the usage of biocomposites has increased significantly over recent years, mainly due to the advantages these materials have when compared to synthetic composites such as i) renewability, ii) eco-friendly components, iii) biodegradable aspects and iv) non-toxicity, this book provides a great update on the technology. These advantages will help to attract wider use in more lightweight based applications such as i) construction and building, ii) biomedical, iii) transportation, automotive, marine and aerospace and iv) in food packaging. Covers recent applications in construction, transportation, food packaging and biomedical sectors. Focuses on materials requirements, factors governing the properties of these materials and durability. Discusses factors effecting processing conditions and recent advancements in design and fabrication. Provides a detailed outline of experimental research in each chapter. Polymers and

Two-Dimensional Nanocomposites Rotimi Sadiku, Yskandar Hamam, Suprakas Sinha Ray, Oladipo Folorunso, 2024-11-23 *Polymers and Two Dimensional Nanocomposites* provides a detailed review of recent progress in this important research field. The chapters cover new developments in synthesis methods, fabrication techniques, sample preparation methods, surface modification, characterization methods of enhancing the properties of these materials and industrial applications in energy, environmental, oil and gas, sensors, corrosion, biomedical and structural applications. The book provides a valuable reference resource for academic and industrial researchers, materials scientists and engineers working in the fields of polymer science and engineering, polymer composites and nanocomposites. Covers recent developments in synthesis, characterization, properties and applications. Discusses new fabrication techniques and how to select the right processing conditions. Systematic presentation of theoretical and experimental investigation of properties for various industrial applications. Attention is given to current challenges and future improvements. **Social Media and Networking: Concepts, Methodologies, Tools, and Applications**

Management Association, Information Resources, 2015-07-31 In the digital era, users from around the world are constantly connected over a global network where they have the ability to connect, share and collaborate like never before. To make the most of this new environment, researchers and software developers must understand users' needs and expectations. *Social Media and Networking: Concepts, Methodologies, Tools and Applications* explores the burgeoning global community made possible by Web 2.0 technologies and a universal interconnected society. With four volumes of chapters related to digital media, online engagement and virtual environments, this multi-volume reference is an essential source for software developers, web designers, researchers, students and IT specialists interested in the growing field of digital media and engagement. This four-volume reference includes various chapters covering topics

related to Web 2.0 e governance social media activism internet privacy digital and virtual communities e business customer relationship management and more *Green Biopolymers and their Nanocomposites* Dhorali Gnanasekaran, 2019-07-06 This book comprises a collection of chapters on green biopolymer nanocomposites The book discusses the preparation properties and applications of different types of biodegradable polymers An overview of recent advances in the fabrication of biopolymers nanocomposites from a variety of sources including organic and inorganic nanomaterials is presented The book highlights the importance and impact of eco friendly green nanocomposites both environmentally and economically The contents of this book will prove useful for students researchers and professionals working in the field of nanocomposites and green technology *Student Engagement and Participation: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2017-06-19 The delivery of quality education to students relies heavily on the actions of an institution s administrative staff Effective teaching strategies allow for the continued progress of modern educational initiatives Student Engagement and Participation Concepts Methodologies Tools and Applications provides comprehensive research perspectives on the multi faceted issues of student engagement and involvement within the education sector Including innovative studies on learning environments self regulation and classroom management this multi volume book is an ideal source for educators professionals school administrators researchers and practitioners in the field of education
