**Handbook for Mortals** Joanne Lynn, MD,Joan Harrold, MD,Janice Lynch Schuster,2011-06-16 Handbook for Mortals is warmly addressed to all those who wish to approach the final years of life with greater awareness of what to expect and greater confidence about how to make the end of their lives a time of growth comfort and meaningful reflection      Stoic

Empathy Shermin Kruse, 2025-04-08 Correct the power imbalances in your work and life with a science backed practice that combines the rigor of Stoic philosophy with the relational impact of empathy Stoicism combined with empathy may sound like a contradiction in terms But when these seemingly opposing forces are harnessed together they have the power to change your life From surviving missile attacks and political oppression in Iran to leading high stakes legal teams and negotiations in corporate America Shermin Kruse s journey fuels her mission to merge empathy and stoicism as tools for navigating power justice and human connection in every facet of life In this eye opening book she offers you this radical perspective shift anchored in up to the minute research to help you navigate life s challenges with power and principles We often think of empathy as an emotional stance we feel what someone else is feeling But Kruse outlines a form of empathy that s based in cognition not emotion a way for us to understand what the other person is thinking and feeling while keeping a distance from their feeling state and shows us how we can strategically maneuver our level of engagement from emotional empathy to cognitive empathy in different circumstances Then she utilizes Stoic philosophy and modern science to outline the how of emotional regulation and control The bridge she builds between Stoicism and empathy gives us the knowledge and discipline we need to Calmly assess the power dynamics of any situation Understand and manage our own emotions as well as the emotions of others Defuse danger and turn conflict into connection Skillfully steer a challenging conversation toward the result we want Whether you re a leader striving to succeed in your role with integrity an educator seeking to guide curious minds with compassion a parent nurturing resilience in your children or simply facing a personal or professional crossroads Stoic Empathy is an essential toolkit for negotiating success in every area of your life **Principles and Practice of Grief Counseling, Second Edition** Darcy L. Harris, PhD, FT, Howard R. Winokuer, PhD, Darcy Harris, 2015-08-10 This core introductory textbook for undergraduate and graduate level courses is the first to combine the knowledge and skills of counseling psychology with current theory and research in grief and bereavement The second edition has been updated to reflect important new research and changes in the field including insights on complicated grief resilience after adverse life experiences and compassion based approaches to death loss and grief It discusses the implications of the DSM 5 s omission of the bereavement exclusion for the diagnosis of a major depressive disorder A completely new chapter on the social context of loss addresses social messages grieving rules workplace policies and the disenfranchisement of many aspects of normal health grief The text also touches upon three new therapies for complicated grief that have been developed by major researchers in the field New case scenarios further enrich the second edition

Reading and the Reference Librarian Juris Dilevko, Lisa Gottlieb, 2014-10-16 Reference librarians are no longer expected to know much about the information they find they are merely expected to find it Technological competency rather than knowledge has become the order of the day In many respects reference service has become a matter of typing search terms into a library s online catalog or a web search engine and providing the patron with the results of the search Calling for a re

intellectualization of reference librarianship this book suggests another approach to providing quality reference service reading The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits From the 950 responses the authors present findings about the extent to which librarians read newspapers periodicals fiction and nonfiction and recount and analyze stories about how reading has made them better librarians The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide ranging subject based knowledge as opposed to the type of process based functional knowledge that is increasingly dominating the curricula of many Library and Information Science programs
