students and readers will bring our attention to such an error so that in our subsequent edition this error may solve and will not repeat While the principal aim of the book is for the UG student of chemistry it should also be of value to many people especially professional chemists physicists mineralogists biologists pharmacists engineers patent attorneys geologists agriculture chemists and chemists in the industries are often called upon to solve problems dealing with the properties of chemical products solution preparation analysis of chemicals We hope this book will be useful for the UG students of chemistry and that its resting place will be the desk of every student rather than on the bookshelf of any institute s library
