Digital Cinematography David Stump, 2014-03-21 First published in 2014 With the shift from film to digital a new view
of the future of cinematography has emerged Today's successful cinematographer must be equal parts artist technician and
business person The cinematographer needs to master the arts of lighting composition framing and other aesthetic
considerations as well as the technology of digital cameras recorders and workflows and must know how to choose the right
tools within their budget to get the job done David Stump's *Digital Cinematography* focusses primarily on the tools and
technology of the trade looking at how digital cameras work the ramifications of choosing one camera versus another and
how those choices help creative cinematographers to tell a story This book empowers you to both correctly choose the right
camera and workflow for your project from today's incredibly varied options as well as understand the ins and outs of
implementing those options Stump sheds a light on the confusing advantages and disadvantages of shooting theatrical
features using digital technology and what it can or can't do Topics covered include Detailed coverage of Arriflex Blackmagic

Coverage of a wide variety of lenses including Angenieux Canon Cooke Fujinon Hawk Leica Panavision Red Schneider Sony
UniqOptics Vantage and Zeiss Coverage of recorders displays and look management tools Exposure theory tips learn how to
correctly expose digital cameras Focusing tips learn how to focus digital cameras correctly Checklists to help design digital
workflows Practical tips on preparation prepare for shooting a digital motion picture like a professional Camera set up and
operation color management digital intermediates 3D stereo cinematography future trends and much more If you aspire to
be a successful cinematographer in this new digital age or if you already are a working cinematographer in need of a
resource to help you stay on top of your game this is a must read book *Radio Set AN/CRD-2* United States. Department of
the Army, 1950 *Political Culture in Late Medieval Britain* Linda Clark, Christine Carpenter, 2004 Eight studies of aspects of
C15 England united by a common focus on the role of ideas in political developments of the time The concept of political
culture has become very fashionable in the last thirty years but only recently has it been consciously taken up by
practitioners of late medieval English history who have argued for the need to acknowledge the role of ideas in politics While
this work has focused on elite political culture interest in the subject has been growing among historians of towns and
villages especially as they have begun to recognise the importance of both internal politics and national government in the

affairs of townsmen and peasants This volume the product of a conference on political culture in the late middle ages explores the subject from a variety of perspectives and in a variety of spheres It is hoped that it will put the subject firmly on the map for the study of late medieval England and lead to further exploration of political culture in this period Contributors CAROLINE BARRON ALAN CROMARTIE CHRISTOPHER DYER MAURICE KEEN MIRI RUBIN BENJAMIN THOMPSON JOHN WATTS JENNY WORMALD LINDA CLARK is editor History of Parliament CHRISTINE CARPENTER is Reader in History University of Cambridge

Intelligent Network Video Fredrik Nilsson, Communications Axis, 2023-12-22 The third edition traces the trajectory of video surveillance technology from its roots to its current state and into its potential future role in security and beyond For the reader it is an opportunity to explore what the latest technology has to offer as well as to gain some insight into the direction that surveillance will take us in the years ahead The revised edition of Intelligent Network Video is more comprehensive in every area than the first and second editions printed in over 25 000 copies There is also a new chapter on cybersecurity as well as thoroughly revised chapters on cloud and analytics The book takes the reader on a tour through the building blocks of intelligent network video from imaging to network cameras and video encoders through the IT technologies of network and storage and into video management analytics and system design
