A Taste for Corpora Fanny Meunier, Gaëtanelle Gilquin, Magali Paquot, 2011 The eleven contributions to this volume written by expert corpus linguists tackle corpora from a wide range of perspectives and aim to shed light on the numerous linguistic and pedagogical uses to which corpora can be put They present cutting edge research in the authors respective domain of expertise and suggest directions for future research. The main focus of the book is on learner corpora but it also includes reflections on the role of other types of corpora such as native corpora expert users corpora parallel corpora or corpora of New Englishes For readers who are already familiar with corpora this volume offers an informed account of the key role that corpus data play in applied linguistics today. As for readers who are new to corpus linguistics the overview of approaches methods and domains of applications presented will undoubtedly help them develop their own taste for corpora This volume has been edited in honour of Sylviane Granger who has been one of the pioneers of learner corpus research
