The Snow Child English Edition:

German Literature of the Early Middle Ages Brian Murdoch, 2004 A detailed contextualized picture of the very beginnings of writing in German from around 750 to 1100 This second volume of the set not only presents a detailed picture of the beginnings of writing in German from its first emergence as a literary language from around 750 to 1100 but also places those earliest writings into a context The first stages of German literature existed within a manuscript culture so careful consideration is given to what constitutes the actual texts but German literature also arose within a society that had recently been Christianized through the medium of Latin Therefore what we understand by literature in Germany at this early period must include a great amount of writing in Latin Thus the volume looks in detail at Latin works in prose and verse but with an eye upon the interaction between Latin and German writings Some of the material in the newly written German language is not literary in the modern sense of the word but makes clear the difficulties and indeed the triumphs of the establishing of a written literary language Individual chapters look first at the earliest translations and functional literature in German including charms and prayers next the examination of heroic material juxtaposes the Hildebrandlied with the Christian Ludwigslied and with Latin writings like Waltharius and the panegyrics Otfrid's work the Gospel poem in German is given its due prominence the smaller German texts and the later prose works are fully treated as is chronicle writing in German and Latin Old High German literature was a trickle compared to the flood of the Latin that surrounded and influenced it but its importance is undeniable that trickle became a river Contributors Linda Archibald Graeme Dunphy Stephen Penn Christopher Wells Jonathan West Brian Murdoch Brian Murdoch is Professor of German at the University of Stirling Scotland

The Russian Revolutionary Novel Richard Freeborn, 1985-02-28 Professor Freeborn's book is an attempt to identify and define the evolution of a particular kind of novel in Russian and Soviet

literature the revolutionary novel This genre is a uniquely Russian phenomenon and one that is of central importance in Russian literature The study begins with a consideration of Turgenev's masterpiece *Fathers and Children* and traces the evolution of the revolutionary novel through to its most important development a century later in Pasternak's *Doctor Zhivago* and the emergence of a dissident literature in the Soviet Union Professor Freeborn examines the particular phases of the genre's development and in particular the development after 1917 the early fiction which explored the relationship between revolution and instinct such as Pilnyak's *The Naked Year* the first attempts at mythmaking in Leonov's *The Badgers* and Furmanov's *Chapayev* the next phase in which novelists turned to the investigation of ideas exemplified most notably by Zamyatin's *We* the resumption of the classical approach in such works as Olesha's *Envy* which explore the interaction between the individual and society and finally the appearance of the revolutionary epic in Gorky's *The Life of Klim Samgin* Sholokhov's *Quiet Flows the Don* and Alexey Tolstoy's *The Road to Calvary* Professor Freeborn also examines the way this kind of novel has undergone change in response to revolutionary change and he shows how an important feature of this process has been the implicit assumption that the revolutionary novel is distinguished by its right to pass an objective independent judgement on revolution and the revolutionary image of man This is a comprehensive and challenging study of a uniquely Russian tradition of writing which draws on a great range of novels many of them little known in the West As with other titles in this series all quotations have been translated

Ideological Manipulation of Children's Literature Through Translation and Rewriting Vanessa Leonardi, 2020-07-06 This book explores the topic of ideological manipulation in the translation of children's literature by addressing several crucial questions including how target language norms and conventions affect the quality of a translation how translations are selected on the basis of what is culturally accepted who is involved in the selection of what should be translated for children in the target culture and how this process takes place The author presents different ways of looking at the translation of children's books focusing particularly on the practices of intralingual and interlingual translations as a form of rewriting across a selection of European languages This book will be of interest to Translation Studies and children's literature scholars as well as those with a wider interest in the impact of ideology on culture

The Letter of the Law Emily Steiner, Candace Barrington, 2002 Scholars have long been aware of the looming presence of law in medieval English literature from Christ as a litigious redeemer to Chaucer's deal making Host in *The Canterbury Tales* Most scholarly work on the subject has been confined either to tracking down representations of legal practices in texts or to examining formal questions relating to legal discourse In a groundbreaking departure *The Letter of the Law* suggests that law and literature should be understood as parallel forms of discourse at times complementary at times antagonistic but always mutually illuminating Emily Steiner and Candace Barrington maintain that medievalists are uniquely placed to make valuable new contributions to the subject of law and literature in part because of the inherently interdisciplinary nature of the study of medieval law inseparable as it was from political theory and theology Treating texts as

varied as Chaucer's Knight's Tale the fifteenth century Robin Hood ballads and William Thorpe's account of his own heresy trial the nine never before published essays in this volume reveal the intersections of legal and documentary culture with vernacular literary production They establish that law and English literature were intimately bound up in processes of institutional linguistic and social change and they explain how the specific conditions of medieval law and literature offer useful models in studying later periods An appendix contains a translation by Andrew Galloway of History or Narration Concerning the Manner and Form of the Miraculous Parliament at Westminster in the Year 1386 **The American**

Goodway, 2011-12-12 From William Morris to Oscar Wilde to George Orwell left libertarian thought has long been an important but neglected part of British cultural and political history In *Anarchist Seeds beneath the Snow* David Goodway seeks to recover and revitalize that indigenous anarchist tradition This book succeeds as simultaneously a cultural history of left libertarian thought in Britain and a demonstration of the applicability of that history to current politics Goodway argues that a recovered anarchist tradition could and should be a touchstone for contemporary political radicals Moving seamlessly from Aldous Huxley and Colin Ward to the war in Iraq this challenging volume will energize leftist movements throughout the world **Beyond Adaptation** Phyllis Frus, Christy Williams, 2010-03-16 Some film and novel revisions go so far beyond

adaptation that they demand a new designation This critical collection explores movies plays essays comics and video games that supersede adaptation to radically transform their original sources Fifteen essays investigate a variety of texts that rework everything from literary classics to popular children's books demonstrating how these new stand alone creations critically engage their sources and contexts Particular attention is paid to parody intertextuality and fairy tale transformations in the examination of these works which occupy a unique narrative and creative space *The Publishers'*
