Border Lines Daniel Boyarin,2010-11-24 The historical separation between Judaism and Christianity is often figured as a clearly defined break of a single entity into two separate religions Following this model there would have been one religion known as Judaism before the birth of Christ which then took on a hybrid identity Even before its subsequent division certain beliefs and practices of this composite would have been identifiable as Christian or Jewish In *Border Lines* however Daniel Boyarin makes a striking case for a very different way of thinking about the historical development that is the partition of Judaeo Christianity There were no characteristics or features that could be described as uniquely Jewish or Christian in late antiquity Boyarin argues Rather Jesus following Jews and Jews who did not follow Jesus lived on a cultural map in which beliefs such as that in a second divine being and practices such as keeping kosher or maintaining the Sabbath were widely and variably distributed The ultimate distinctions between Judaism and Christianity were imposed from above by border makers heresiologists anxious to construct a discrete identity for Christianity By defining some beliefs and practices as Christian and others as Jewish or heretical they moved ideas behaviors and people to one side or another of an artificial border and Boyarin significantly contends invented the very notion of religion

Žižek and Performance B. Chow,A. Mangold,2014-10-17 The first edited volume to examine philosopher Slavoj Žižek's influence on and his relevance for theatre and performance

studies Featuring a brand new essay from i ek himself this is an indispensable contribution to the emerging field of Performance Philosophy China Unbound Paul A. Cohen,2003-09-02 This volume contains a number of articles on modern Chinese history and historiography written by one of the leading academic experts on the subject The author provides a critique of older approaches to nineteenth century history and offers powerful reinterpretations of such key events in the recent history of China as the boxer rebellion Mao s ascension to power in 1949 and the process of political and economic reform in the post Mao era This is a strong collection which will be of enormous interest to scholars of East Asian history

Indian Theatre Ralph Yarrow,2001 This work discusses why so many western theatre workers have come to India and what they were looking for It identifies Indian theatre as a site of reappraisal and renewal both in India and in the world of performance Sibling Action Stefani Engelstein,2017-12-05 The sibling stands out as a ubiquitous yet unacknowledged conceptual touchstone across the European long nineteenth century Beginning in the late eighteenth century Europeans embarked on a new way of classifying the world devising genealogies that determined degrees of relatedness by tracing heritage through common ancestry This methodology organized historical systems into family trees in a wide array of new disciplines transforming into siblings the closest contemporaneous terms on trees of languages religions races nations species or individuals In literature a sudden proliferation of siblings often incestuously inclined negotiated this confluence of knowledge and identity In all genealogical systems the sibling term not quite same and not quite other serves as an active fault line necessary for and yet continuously destabilizing definition and classification In her provocative book Stefani Engelstein argues that this pervasive relational paradigm shaped the modern subject life sciences human sciences and collective identities such as race religion and gender The insecurity inherent to the sibling structure renders the systems it underwrites fluid It therefore offers dynamic potential but also provokes counterreactions such as isolationist theories of subjectivity the political exclusion of sisters from fraternal equality the tyranny of intertwined economic and kinship theories conflicts over natural kinds and evolutionary speciation and invidious anthropological and philological classifications of Islam and Judaism Integrating close readings across the disciplines with panoramic intellectual history and arresting literary interpretations Sibling Action presents a compelling new understanding of systems of knowledge and provides the foundation for less confrontational formulations of belonging identity and agency Waiting for Antichrist Damian Thompson,2005-04-21 How can people believe that the supernatural end of the world lies just around the corner when so far every such prediction has been proved wrong Some scholars argue that millenarians are psychologically disturbed others maintain that their dreams of paradise on earth reflect a nascent political awareness In this book Damian Thompson looks at the members of one religious group with a strong apocalyptic tradition Kensington Temple a large Pentecostal church in London and attempts to understand how they reconcile doctrines of the end of the world with the demands of their everyday lives He asks such questions as Who is making the argument that the world is about to end and on whose authority How is it

communicated Which members are persuaded by it What are the practical consequences for them How do they rationalize their position Based on extensive interviews as well as a survey of almost 3000 members Thompson finds existing explanations of apocalyptic belief inadequate Although they profess allegiance to millennial doctrine he discovers members actually assign a low priority to the End Times The history of millenarianism is littered with disappointment Thompson notes and the lesson has largely been learned predictive millenarianism with its risky time specific predictions of the end has been substantially supplanted by explanatory millenarianism which uses apocalyptic narratives to explain features of the contemporary world Most apocalyptic believers he finds are comfortable with these lower cost explanatory narratives that do not require them to sell their houses and head for the hills He does uncover a handful of textbook millenarians in the congregation people who are confident that Jesus will return in their lifetimes He concludes that their atypical beliefs were influenced by their conversion experiences individual psychology and degree of subcultural immersion Although much has been written about apocalyptic belief Thompson's empirically based study is unprecedented It constitutes an important step forward in our understanding of this puzzling feature of contemporary religious life **Evelyn Waugh** Martin

Kennedy, 2010-08-26 An authoritative reference covering primarily actors playwrights directors styles and movements companies and organizations Hollywood and the CIA Oliver Boyd Barrett, David Herrera, James Baumann, 2011-03 This book investigates representations of the Central Intelligence Agency CIA in Hollywood films and the synergies between Hollywood product U S military defense interests and U S foreign policy As probably the best known of the many different intelligence agencies of the US the CIA is an exceptionally well known national and international icon or even brand one that exercises a powerful influence on the imagination of people throughout the world as well as on the creative minds of

filmmakers The book examines films sampled from five decades the 1960s 1970s 1980s 1990s and 2000s and explores four main issues the relative prominence of the CIA the extent to which these films appeared to be overtly political the degree to which they were favorable or unfavorable to the CIA and their relative attitude to the business of intelligence A final chapter considers the question do these Hollywood texts appear to function ideologically to normalize the CIA If so might this suggest the further hypothesis that many CIA movies assist audiences with reconciling two sometimes fundamental opposites often gruesome covert CIA activity for questionable goals and at enormous expense on the one hand and the values and procedures of democratic society on the other This interdisciplinary book will be of much interest to students of the CIA Intelligence Studies media and film studies US politics and IR Security Studies in general History, Tragedy, Theory Barbara E. Goff,1995-01-01 In this book some of the foremost scholars of Greek drama explore the work of all three great tragedians and approach them from a variety of perspectives on history and theory including poststructuralism and Marxism They investigate the possibilities for coordinating theoretically informed readings of tragedy with a renewed attention To The pressure of material history within those texts The collection thus represents a response within classics to New Historicism And The debates it has generated within related literary disciplines **Global Soundtracks** Mark Slobin,2008-09-29 The first volume focusing on film music as a worldwide phenomenon *Of Modern Dragons; and other essays on Genre Fiction:* John Lennard,2016-10-09 A volume of essays exploring some of the best genre fiction of the last 40 years *Angela Carter: Surrealist, Psychologist, Moral Pornographer* Scott Dimovitz,2016-03-02 Contributing to the conversation regarding Angela Carter s problematic relationship with what she viewed as the interrelated traditions of surrealism and psychoanalysis Scott Dimovitz explores the intricate connections between Carter s private life and her public writing He begins with Carter s assertion that it was through her sexual and emotional life that she was radicalized drawing extensively on the British Library s recently archived collection of Carter s private papers journals and letters to show how that radicalization happened and what it meant both for her worldview and for her writings Through close textual analysis and a detailed study of her papers Dimovitz analyzes the ways in which this second wave feminist s explorations of sexuality merged with her investigations into surrealism and psychoanalysis an engagement that ultimately led to the explosively surreal allegories of Carter s later more complex and more accomplished work His study not only offers a new way to view Carter s oeuvre but also makes the case for the importance of Angela Carter s vision in understanding the transformations in feminist thinking from the postwar to the postfeminist generation
