Roland Kent, 2016-02-23 J R Kent has solved a 2 500 year old mystery that defies both religion and science Hidden in the thirty one verses of Genesis One is a message so powerful it could ultimately change the course of global events Our hi tech world is barely a century old and already life altering environmental terrorist political economic and health threats pose potentially dire consequences for our future However many of the ancient advanced civilizations such as the Egyptians the Greeks the Romans and the Mayans of Central America

endured for thousands of years So what was their secret and how is it revealed in the Genesis verses Genesis One is an ancient creation account for the earth plants animals and humankind However when reading these verses they may seem bewildering and out of the natural order The premise of this book illustrates in startling detail that this amazing story in fact perfectly correlates with the theories of modern science There are several reasons why this mystery has not been revealed until now First an ancient author wrote this account in the original Hebrew language but the actual evolutionary sequence of the Earth that he so accurately revealed has been lost in translation by the many biblical versions that followed Second the discoveries of modern science now put us at a point in time when this correlation has now been found in translation This revelation then begs two questions How was this knowledge possible in ancient times and who wrote it
