Vanuatu are structurally different from other Oceanic languages Sye has an unusually complex morphological system and it offers a number of typological surprises for Oceanic linguists It differs syntactically from many other Oceanic languages of Melanesia in that it does not have widespread verb serialization though it along with the other languages of southern Vanuatu has developed what can be referred to as a system of echo verbs This volume describes Sye's phonology and morphosyntax in terms that are intended to be accessible to followers of a variety of linguistic theories with considerable exemplification of points to allow linguists to reanalyze data according to their own theoretical interests Culture of Melanesia Alphonse Riesenfeld, 1950 South Coast New Guinea Cultures Bruce M. Knauft, 1993-03-25 The communities of south coast New Guinea were the subject of classic ethnographies and fresh studies in recent decades have put these rich and complex cultures at the centre of anthropological debates Flamboyant sexual practices such as ritual homosexuality have attracted particular interest In the first general book on the region Dr Knauft reaches striking new comparative conclusions through a careful ethnographic analysis of sexuality the status of women ritual and cosmology political economy and violence among the region s seven major language culture areas The findings suggest new Melanesian regional contrasts and provide for a general critique of the way regional comparisons are constructed in anthropology Theories of practice and political economy as well as post modern insights are drawn upon to provide a generative theory of indigenous social and symbolic development Ethnology of Vanuatu Felix Speiser, 1999-02 Translated from German and originally published in 1991 this volume presents a comprehensive account of the material culture and art of Vanuatu Archaeology of Early Christianity in Vanuatu James L. Flexner, 2016-12-19 Religious change is at its core a material as much as a spiritual process Beliefs related to intangible spirits ghosts or gods were enacted through material relationships between people places and objects The archaeology of mission sites from Tanna and Erromango islands southern Vanuatu formerly the New Hebrides offer an informative case study for understanding the material dimensions of religious change One of the primary ways that cultural difference was thrown into relief in the Presbyterian New Hebrides missions was in the realm of objects Christian Protestant missionaries believed that religious conversion had to be accompanied by changes in the material conditions of everyday life Results of field archaeology and museum research on Tanna and Erromango southern Vanuatu show that the process of material transformation was not unidirectional Just as Melanesian people changed religious beliefs and integrated some imported objects into everyday life missionaries integrated local elements into their daily lives Attempts to produce civilised Christian natives or to change some elements of native life relating purely to religion but not others resulted instead in a proliferation of hybrid forms This is visible in the continuity of a variety of traditional practices subsumed under the umbrella term kastom through to the present alongside Christianity Melanesians didn t become Christian Christianity became Melanesian The material basis of religious change was integral to this process Colonial Reports - Annual Great Britain. Colonial Office, 1933 Each number comprises the annual report of a different colony for a

particular year Arts of Vanuatu Joël Bonnemaison, 1996-01-01 This prodigiously diverse and living culture has for its spiritual source a single traditional vision central to which is the fact that the world belongs not to the living but to the ancestors In Vanuatu art we have the construction of canoes and of standing slit drums the inventiveness apparent in the masks and mats the aesthetics of dress the raising of tusker pigs the sharing out of sea turtle meat the symbol of the hawk representing the outward sign of the possession of the world through the eyes of the departed This art sacred in inspiration takes root in the magic of each place and shore Arts of Vanuatu is the first major contemporary anthropology work covering such a range of topics It is also the first work covering the traditional art of the former South Pacific island colony of the New A Melanesia Bibliography Terence A. Wesley-Smith, Michael P. Hamnett, 1984 Pieces of the Vanuatu Hebrides Puzzle Stuart Bedford, 2007-02-02 Pieces of the Vanuatu Puzzle presents the results of the most intensive and widespread archaeological investigations in Vanuatu for more than 30 years For the first time the results of extensive excavations carried out on three islands in the archipelago are published The sites span from the period of initial Lapita settlement through to later cultural transformations The research has brought greater clarity to the early history of the Vanuatu archipelago and has wider implications for the region in general particularly in terms of how processes of cultural change are explained It is an essential reference work both for those archaeologists working in the western Pacific but also for those who deal with material culture generally and pottery more specifically **Strings of Connectedness** P.G. Toner, 2015-09-18 For nearly four decades Ian Keen has been an important challenging and engaging presence in Australian anthropology Beginning with his PhD research in the mid 1970s and through to the present he has been a leading scholar of Yolngu society and culture and has made lasting contributions to a range of debates His scholarly productivity however has never been limited to the Yolngu and he has conducted research and published widely on many other facets of Australian Aboriginal society on Aboriginal culture in settled Australia comparative historical work on Aboriginal societies at the threshold of colonisation a continuing interest in kinship ongoing writing on language and society and a set of significant land claims across the continent In this volume of essays in his honour a group of Keen's former students and current colleagues celebrate the diversity of his scholarly interests and his inspiring influence as a mentor and a friend with contributions ranging across language structure meaning and use the post colonial engagement of Aboriginal Australians with the ideas and structures of mainstream society ambiguity and indeterminacy in Aboriginal symbolic systems and ritual practices and many other interconnected themes each of which represents a string that he has woven into the rich tapestry of his scholarly work

They Came for Sandalwood Dorothy Shineberg, 2014-06-01 Few Pacific history books have stood the test of time as well as They Came for Sandalwood but Dorothy Shineberg s book first published in 1967 has never been bettered This fascinating account of the sandalwood trade describes the first regular contact between

Europeans and the Melanesians of New Caledonia the Loyalty Islands and the New Hebrides now Vanuatu Shineberg studied the relationships and rivalries between European traders and European missionaries between trader and trader and between tribe and tribe among the indigenous peoples Her book documents the details and color of these interactions Unseaworthy ships bloody battles the hazards of sea and reef and the firepower and inadequacies of European weapons all provide a gripping picture of the 1830s to 1860s Valuable appendices list the ships involved their cargoes and the location of the sandalwood stations They Came for Sandalwood remains the only detailed account of the sandalwood trade its routes marketing problems and profits and of the ships merchants and seamen involved It is a sharp perceptive analysis of the confrontation of the two cultures approached from the standpoint of Pacific history rather than a mere extension of European history into the PacificIslands In Search of the Swan Maiden Barbara Fass Leavy, 1994 The swan maiden is a supernatural woman forced to marry keep house and bear children for a mortal man who holds the key to her imprisonment When she manages to regain this key she escapes to the otherworld rarely to return In this book Barbara Fass Leavy studies the meaning of gender in the stories that cluster around the swan maiden The author poses questions concerning how the female folk socialize other women in a man's world how myths of feminine evil attach themselves to widely disseminated folktales and how ominous meanings are obscured by the traditional happy endings of some fairy tales By including the swan maiden in a group of folklore characters designated as animal brides and comparing them to animal grooms Leavy also offers an alternative to the traditional emphasis by folklorists and other scholars on animal groom narratives and shows how the commentators neglect of frog princesses in favor of frog princes for example is paralleled by the folklore themes in stories of shapeshifting women Beautifully written this book reveals the myriad ways in which the folktales become allegories of gender relations Barbara Fass Leavy expertly combines literary gender and cultural studies to present the swan maiden as the prototypical other The swan maiden tale has been interpreted as depicting exogamous marriages Barbara Fass Leavy s argument is a more radical and inclusive variation of this speculation She believes that in the societies in which the tale and its variants were told woman was the other trapped by marriage in a world never quite her own Leavy shows how the tale though rarely explicitly recognized is frequently replayed in modern literature and life
