beginning to realize what kind of opposition they are now facing A series of battles will bring both sides together in one final massive battle that will decide the war Can Cate Harrow and Gort Eagleton survive and avoid disaster This ebook also contains the first novella in a new series Tales of the High Avenging Angel Excerpt LeClair was just about to give the order to deploy the RD2s into their pre jump positions when the tactical display double pinged and the icons representing Bismarck Sea and Valley Forge suddenly began flashing to denote damage of some kind Before he could say anything Waterloo s icon started flashing too What the hell is happening snarled LeClair Admiral Waterloo has multiple hull breaches and the number is continuing to grow LeClair recognized the voice of Waterloo s C O Valley Forge reports they re under attack Admiral shouted the com technician But from where dammit yelled LeClair We have to jump away Admiral Waterloo s C O s voice was on the ragged edge of panic NO shouted CAG The squadrons don t have a rally point If we jump away now they ll never find us again And if we stay long enough to give them a rally point we might not be able to jump away at all said the C O The CAG started to say something but LeClair cut him off We jump right now Fleet Commander to all units emergency jump NOW I repeat NOW

**Return of the Star**

**Raiders** Dietmar Arthur Wehr, 2019-11-14 After the collapse of the interstellar Federation human civilization descended into a new Dark Age as planets cut off from Earth and each other reverted to a lower tech level. After centuries of struggling to pull themselves back up by their bootstraps they face a new and terrible threat: Raiders with faster than light ships and contra gravity tanks steal anything they want and kill anyone that gets in their way. This military SF novel is the story of three generations of a family as they fight to protect their planet and loved ones from the forces of chaos. Excerpt: He quickly checked the distance to the mine site and compared that with the missile's own effective range and the X-12's speed. There was a slim chance of getting within firing range before the enemy ships got too high. The throttles were already pushed as far forward as they could go but there was one more thing Strider could try in order to get more speed. He initiated the afterburners which poured fuel directly into the hot engine exhaust causing secondary combustion and additional thrust. The sudden surge in speed felt like someone had just kicked him in the back. The enemy ships were starting to gain altitude faster now. The distance between them and the X-12 was dropping faster too but there was no way to know for sure if it was dropping fast enough. With seconds to go until the enemy ships got within missile range Strider armed the warhead, opened the weapons bay and lowered the missile's launch platform. The fuel exhaustion warning light lit up and he heard the accompanying warning alarm that he was almost out of fuel. Landing without fuel was going to be a bitch but he couldn't worry about that now. He had to focus on getting within firing range. Without radar there was no way to know for sure but his estimated position relative to the mine site told him that the enemy ships were now within missile range. He activated the Mark 3 warhead's guidance system which would begin radar scanning as soon as the missile launched and pressed his thumb down on the red firing button.

**Excalibur's Quest** Dietmar Arthur Wehr, 2018-04-30 In Scimitar's Glory the alien Tong won the Battle for Earth and took control of the orbital space around the planet. Humanity is now at their mercy but not all Space Force warships have been defeated. Wolfe Koenig's light cruiser Excalibur is on a mission to acquire technology that just might enable the ragged remnants of the Fleet to snatch victory from the jaws of defeat if he can find an alien race with that technology if he can convince them to trade for it and if the technology can be exploited fast enough. Excalibur's Quest is the story of that mission and the challenges both alien and human that Koenig faces. This is the second book in the action packed military SF Swordships Odyssey series.
