**A Guide to Modern Economics** Michael Bleaney, Prof David Greenaway, 1996-07-04 This work provides a valuable review of the most important developments in economic theory and application over the last decade. Comprising twenty-seven specially commissioned overviews, the volume presents a comprehensive and student-friendly guide to contemporary economics. Previously published by Routledge as part of the Companion to Contemporary Economic Thought, these essays are made available here for the first time in a concise paperback edition. *A Guide to Modern Economics* will be a valuable guide to all those who wish to familiarize themselves with the most recent developments in the discipline.

*Politics of Power: The Art of Governance in the Contemporary World* Pasquale De Marco, 2025-04-09 *Politics of Power: The Art of Governance in the Contemporary World* is a comprehensive and insightful exploration of the complexities of politics and governance in today's rapidly changing world. This book provides a thorough analysis of the evolving landscape of governance, the structures of power, the art of leadership, the policy process, the role of government, the challenges of governance, and the future of governance. With its thought-provoking insights and engaging writing style, *Politics of Power* offers a deeper understanding of the political dynamics that shape our world. It examines the shifting dynamics of power structures, the impact of technology on governance, the role of public opinion in shaping policy, and the evolving landscape of international relations. The book also delves into the structures of power, exploring the importance of political institutions, the role of government agencies, the influence of interest groups, the power of the media, and the impact of political culture. *Politics of Power* delves into the art of leadership, discussing the qualities of effective leaders, the role of charisma in politics, the importance of communication and persuasion, the challenges of decision-making, and the ethics of leadership. It explores how leaders can inspire and motivate their people and how they can use their power to make a difference in the world. The book also examines the policy process, analyzing the role of political parties in policy-making, the influence of public opinion on policy, the stages of the policy-making process, the challenges of policy implementation, and the importance of policy evaluation. It highlights the role of government in providing public goods and services, regulating economic activity, protecting public health and safety, promoting social welfare, and playing a role in international relations. *Politics of Power* confronts the challenges of governance, delving into the problems of poverty and inequality, the threat of corruption, the impact of climate change, the challenges of globalization, and the rise of populism. It explores the future of governance, examining the impact of technology on governance, the changing role of government, the importance of international cooperation, the challenges of global governance, and the promise of a more democratic future. **Sustainable Development Goals and Income Inequality** Peter A.G. van Bergeijk, Rolph van der Hoeve, 2017-11-24 This timely book documents and analyses the seriousness of growing national inequality in different regions around the world It argues that the treatment of inequality in the Sustainable Development Goals SDGs is wholly insufficient due to their failure to recognise the growing difference between the income of work and the income of capital and the super rich and the strain this places on a country's social fabric

**(Dys-)Functionalities of Corruption** Tobias Debiel, Andrea Gawrich, 2013-12-16 Corruption is usually understood as hampering political development economic growth and democratic participation of citizens but comparing the effects of corruption for different political regimes presents astonishingly complex findings The ongoing persistence of corruption underlines that it is not only dysfunctional but can be highly functional as well This special issue brings together contributions from comparative politics political science and economics which precisely focus on these dys functionalities of corruption in political regimes across various world regions The question of methodological pluralism is especially important for studying corruption comparatively While on an international level a trend towards an increased use of quantitative methods in political science as well as in economics can be observed the special issue underlines the importance of having a pluralistic approach for grasping the complex and multi layered effects of the phenomenon Of similar importance is the adoption of a comparative perspective that includes different world regions in order to understand the different roles of corruption in developing transforming and developed countries alike Dr Tobias Debiel is Director of the Centre for Global Cooperation Research and of the Institute for Development and Peace INEF Since 2006 he is also Professor in International Relations and Development Policy Institute of Political Science University of Duisburg Essen Dr Andrea Gawrich is Professor for International Integration at the University of Gießen

**Technocracy and the Epistemology of Human Behavior** Paul Gunn, 2022-11-10 In Power Without Knowledge A Critique of Technocracy 2019 Jeffrey Friedman presented a sweeping reinterpretation of modern politics and government as technocratic even in many of its democratic dimensions Building on a new definition of technocracy as governance aimed at solving social and economic problems Friedman showed that the epistemic demands that such governance places on political elites and ordinary people alike may be overwhelming if technocrats fail to attend to the ideational heterogeneity of the human beings whose control is the object of technocratic power Yet a recognition of ideational heterogeneity considerably complicates the task of predicting behavior which is essential to technocratic control as Friedman demonstrated with pathbreaking critiques of the homogenizing

strategies of neoclassical economics positivist social science behavioral economics and populist democratic politics In Technocracy and the Epistemology of Human Behavior thirteen political theorists including Friedman himself debate the implications of Power Without Knowledge for social science modern governance the politics of expertise post structuralism anarchism and democratic theory and Friedman responds to his critics with an expansive defense of his vision of contemporary politics and his political epistemology of ideationally diverse human beings This book was originally published as a special issue of the Critical Review      **Congressional Record** United States. Gale,2018-07-27 This theoretical and practical book builds on the knowledge

that sustainability's value pluralism cannot be reconciled with the value monism of classical neoclassical nationalist or socialist political economy. Developing the concept of sustainability value (SV) which requires integrating economic exchange, social, labour, environmental, intrinsic and cultural use values in all processes of extraction, manufacturing, trade, consumption and disposal, the book reformulates our understanding of key political economy topics such as trade, investment, preference formation, corporate governance and the role of the state. The book illustrates how SV is being realised via multi-stakeholder networks which, forming at the community, national and global levels, enable the required cross-value deliberation.
