the era along with anthologies It then provides entries for a wide ranging selection of works which cover fictional theoretical historical political and cultural topics to provide a comprehensive background to the unfolding and understanding of prose fiction in the early 18th century This is followed by an alphabetical listing of novels their editions and any critical material available on each The next section provides a chronological record of significant and enduring works of fiction composed or translated in this period The volume concludes with extensive indexes *An Encyclopaedia of Occultism* Lewis
