The Better Writing Breakthrough Eleanor Dougherty, Laura Billings, Terry Roberts, 2016-03-04 Every teacher knows the challenge of trying to engage reluctant readers and struggling writers students whose typical response to a writing prompt is a few sentence fragments scribbled on a sheet of paper followed by an elaborate shrug of the shoulders The best way to engage less confident readers and writers is to give them something powerful to think about The Discourse and Writing Cycle explores writing as a means to focus student thinking fuel deeper learning and build complex understanding in English social studies math and science This field tested approach from well respected experts Eleanor Dougherty Laura Billings and Terry Roberts is designed for use in grades 4 12 The book explores the three interrelated sequences of the cycle the Discourse Sequence the Transition to Writing Sequence and the Writing Sequence and includes classroom examples and sample lesson plans from across the content areas The cycle will inspire you as a teacher and help you to inspire your students to write with confidence and competence How often we dim or extinguish the creative sparks that can come from good writing William Butler Yeats proclaimed that Education is not the filling of a pail but the lighting of a fire This book lights the fire for the teaching of writing John Hattie author of the Visible Learning books

The Writing Revolution Judith C. Hochman, Natalie Wexler, 2017-08-07 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution TWR provides a clear method of instruction that you can use no matter what subject or grade level you teach The model also known as The Hochman Method has demonstrated over and over that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback Insurmountable as the challenges faced by many students may seem The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing There s no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what s most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content
