Ikonomou, Aurélie Andry, Rebekka Byberg, 2017-03-16 This volume suggests new theoretically informed approaches for historians and social scientists to engage with the policy of enlargement across rounds and in all its diversity It follows three approaches first tracing Longue Dur e developments second investigating enlargement Beyond the Road to Membership and third exploring the Entangled Exchanges and synergies between the EC EU and its outside It attempts to properly historicise the process of enlargement with contributions from historians social scientists and a legal scholar exemplifying suggested approaches and theoretical reflections from the various disciplines      **Protecting Animals Within and Across Borders** Charlotte E. Blattner, 2019 How can we protect animals more effectively both at home and abroad given the ongoing globalization of animal production This book provides a catalogue of options for extraterritorial jurisdiction which states can employ to strengthen their animal laws It offers top down perspectives drawn from general international law and trade law and complements them by a bottom up view from the perspective of animal law      **Norm Diffusion Beyond the West** Šárka Kolmašová, Ricardo Reboredo, 2023-03-01 This book explores norm diffusion in non Western contexts It analyzes how norms transfer and what mechanisms or sources of leverage facilitate their diffusion The individual chapters follow an interdisciplinary framework that analyzes social norms beyond the theoretical tradition of international relations and focus on particular cases of diffusion both successful and unsuccessful across the non Western world In this way the book challenges existing perspectives and advances critical norm research that diversifies the agency of norm entrepreneurs beyond processes of norm localization It makes a twofold contribution by deepening our theoretical understanding of norms and their dynamics and by broadening the geographical scope of norms research      **Ethnic Challenges Beyond Borders** Rouben Azizian, Yongjin Zhang, 2016-07-27 A rare collection of essays by leading Chinese and Russian Central Asian specialists The contributors address the problems and challenges posed by the resurgence of Central Asia to China and Russia Both Countries are in search of a post communist and post cold war order The editors explore uncertain transformations in Central Asia and their implications for Chinese and Russian foreign policies and speculate on the possible outcome of the current search for a regional order      **Intellectual Property Ordering beyond Borders** Henning Grosse Ruse-Khan, Axel Metzger, 2022-10-13 During the past century intellectual property IP law has expanded within and beyond national borders The field of IP law was once a niche area concerning authors inventors and trademark owners Today IP law acts as a complex regime of instruments institutions and actors that negotiate overlapping diverging and occasionally competing public policies on a global scale As IP continues to expand beyond borders the instruments and tools utilised for its global protection rely on public international law as the common denominator and unifying frame Intellectual Property Ordering Beyond Borders provides an evaluation of the most pertinent public international law questions raised by this multidimensional expansion This comprehensive and far reaching volume tackles problems such as generalist approaches

under the law of treaties custom and general principles interfaces between IP and other normative orders such as trade and investment and interdisciplinary accounts from the economic political and social science perspectives This title is also available as open access on Cambridge Core *Framing History in East-Central Europe and Beyond* LIT Verlag,2022-09-06

During the 1970s today's Austrian Federal Ministry of Education Science and Research Bundesministerium für Bildung Wissenschaft und Forschung BMBWF supported the founding of the Center for Austrian Studies at the University of Minnesota in Minneapolis and the Austrian Chair at Stanford University in California These foundations were the initial incentives for the worldwide spreading of similar institutions currently nine Centers for Austrian and Central European Studies exist in seven countries on three continents The funding of the Ministry enables to connect senior scholars with young scholars to help young PhD students to participate in and to benefit from the scientific connection of experienced researchers and to get in touch with the national scientific community by sniffing scientific air as the Austrians like to say Furthermore it aims to avoid prejudices and to spread a better understanding and knowledge about Austria and Central Europe by promoting scientific exchange This volume contains the annual reports 2018 2019 2019 2020 of the Center Directors and the papers of their PhD students which discuss various topics on mostly East Central European History from several perspectives and in different centuries Ferdinand K hnel Postdoc researcher at the Institute of East European History University of Vienna Ned ad Ku PhD candidate at the Institute of East European History University of Vienna Marija Wakounig Professor at the Institute of East European History University of Vienna *Beyond Borders* Molly Katrina Land,Kathryn Rae Libal,Jillian Robin Chambers,2021-09-16 Explores new forms of belonging across borders to foster more robust protections for non citizens This title is available as Open Access on Cambridge Core *Evaluating the Responsibility to Protect* Noële Crossley,2016-03-31 This book evaluates the extent to which the Responsibility to Protect R2P has consolidated as a norm in international society A consolidated norm in international society is defined here as a regularised pattern of behaviour that is widely accepted as appropriate within a given social context The analysis is based on the assumption that the R2P could be regarded as a consolidated norm if it were applied consistently when genocide and other mass atrocities occur and if international responses routinely conformed to the core principles inherent in the R2P seeking government consent multilateralism prevention and regionalism This book employs Finnemore and Sikkink's norm lifecycle model to determine the putative norm's degree of consolidation with in depth case studies of the international responses to crises in Darfur and Kenya serving to illuminate the findings It advances the argument that whilst the R2P had fully emerged as a prospective norm by 2005 it has not yet fully consolidated as an international norm The R2P has been remarkably successful at pervading the international discourse but has been somewhat less successful at consistency in implementation in terms of adherence to its core principles as outlined above the qualitative dimension of the R2P Furthermore it has been least successful to date in terms of consistency across cases in terms of resolve and tenacity The volume concludes with a

reflection on the norm's progress so far and its prospects for further consolidation assuming the R2P continues on its current trajectory This book will be of much interest to students of the Responsibility to Protect humanitarian intervention international law security studies and IR Gender Innovation in Political Science Marian Sawer, Kerry Baker, 2018-06-16

In this book leading gender scholars survey the contribution of feminist scholarship to new norms and knowledge in diverse areas of political science and related political practice They provide new evidence of the breadth of this contribution and its policy impact Rather than offering another account of the problem of gender inequality in the discipline the book focuses on the positive contribution of gender innovation It highlights in a systematic and in depth way how gender innovation has contributed to sharpening the conceptual tools available in different subfields including international relations and public policy At the same time the authors show the limits of impact in core areas of an increasingly pluralised discipline This volume will appeal to scholars and students of political science and international relations *Global Humanitarianism*

Daniel Robert DeChaine, 2005-01-01 In *Global Humanitarianism* Daniel Robert DeChaine undertakes an historical cultural analysis of humanitarian NGO rhetoric and politics He focuses his study specifically on MZdecins Sans Frontières and the International Campaign to Ban Landmines This book besides being the first of its kind offers to the disciplines of political science cultural studies and sociology a model with which to consider the political and social roles of NGOs in the ever changing global community **Imagination without Borders** Laura Hein, Rebecca Jennison, 2010-01-08 Tomiyama Taeko a Japanese visual artist born in 1921 is changing the way World War II is remembered in Japan Asia and the world Her work deals with complicated moral and emotional issues of empire and war responsibility that cannot be summed up in simple slogans which makes it compelling for more than just its considerable beauty Japanese today are still grappling with the effects of World War II and largely because of the inconsistent and ambivalent actions of the government they are widely seen as resistant to accepting responsibility for their nation's violent actions against others during the decades of colonialism and war Yet some individuals such as Tomiyama have produced nuanced and reflective commentaries on those experiences and on the difficulty of disentangling herself from the priorities of the nation despite her lifelong political dissent Tomiyama's sophisticated visual commentary on Japan's history and on the global history in which Asia is embedded provides a compelling guide through the difficult terrain of modern historical remembrance in a distinctively Japanese voice

Routledge Handbook on Human Rights and the Middle East and North Africa Anthony Tirado Chase, 2016-11-10 Recent events such as Iran's Green Revolution and the Arab Uprisings have exploded notions that human rights are irrelevant to Middle Eastern and North African politics Increasingly seen as a global concern human rights are at the fulcrum of the region's on the ground politics transnational intellectual debates and global political intersections The Routledge Handbook on Human Rights and the Middle East and North Africa emphasises the need to consider human rights in all their dimensions rather than solely focusing on the political dimension in order to understand the structural reasons behind the persistence of

human rights violations explores the various frameworks in which to consider human rights conceptual political and transnational international discusses issue areas subject to particularly intense debate gender religion sexuality transitions and accountability contains contributions from perspectives that span from global theory to grassroots reflections emphasising the need for academic work on human rights to seriously engage with the thoughts and practices of those working on the ground A multidisciplinary approach from scholars with a wide range of expertise allows the book to capture the complex dynamics by which human rights have had or could have an impact on Middle Eastern and North African politics This book will therefore be a key resource for students and scholars of Middle Eastern and North African politics and society as well as anyone with a concern for Human Rights across the globe

**The Hidden Hands of Justice** Heidi Nichols

Haddad,2018-08-09 As the first comprehensive analysis of NGO participation at international criminal and human rights courts this book will interest a global and wide range of students scholars and NGOs in the fields of human rights public international law politics and international relations and law and society

*Reimagining State and Human Security Beyond Borders* Annamarie Bindenagel Šehović,2018-01-11 This book delves into the diffuse relationship between states citizens and non citizens It explores the theoretical heritage of human security and identifies practical responses to the re negotiated relationships between states and citizens responsibility and accountability It argues that the changes to global order since the 1990s have resulted in a divergence from the understanding of the State as the arbiter within its territory and as the guarantor of human security within its borders In addition while interventionist actions of various non state actors to implement material guarantees of human security reaching both citizens and non citizens including refugees have solved some immediate problems they have not answered the question of where accountability ultimately lies

**When the State No Longer Kills** Sangmin Bae,2012-02-01 Despite public support for the death penalty a remarkable number of countries in different parts of the world have banned capital punishment in all its forms regardless of the nature of the crime or the criminal Arguing that international norms are often a critical source of ideas for change in state policy but that impact varies greatly Sangmin Bae offers a systemic explanation of how when and under what conditions a country complies with international norms She examines four countries that reached different stages of norm compliance with respect to the death penalty Ukraine South Africa South Korea and the United States Focusing on the role of political leadership and domestic political institutions Bae clarifies the causal mechanisms that lead to state compliance or noncompliance with the norm

**Illusions of Control** Erica L. Gaston,2024-08-06 Over the last two decades the United States has supported a range of militias rebels and other armed groups in Afghanistan Iraq and Syria Critics have argued that such partnerships have many perils from enabling human rights abuses to seeding future threats Policy makers however have sought to mitigate the risks of partnering with irregular armed groups Militia group leaders in far flung corners of these war torn countries were subjected to background checks and instructed about international law and human rights and their funding was cut when

they crossed red lines To what extent have such mechanisms curbed the dangers of proxy warfare and what unforeseen consequences has this approach unleashed Drawing on a decade of field research and hundreds of interviews with stakeholders Erica L Gaston unpacks the dilemmas of attempting to control proxy forces She demonstrates that although the tools U S policy makers used to constrain partners behavior increased in number and sophistication they never fully addressed the range of political security and legal concerns surrounding these forces Moreover by shifting policy makers calculations the use of proxy forces introduced additional moral hazards and may have enabled riskier decision making Featuring substantial empirical detail and close analysis of key internal debates Illusions of Control offers new perspectives on some of the most significant and controversial elements of recent U S security policy In addition to nuanced insights about proxy relationships this book provides a novel analytical toolkit for exploring transnational bargaining and foreign policy deliberations in hybrid political environments
