

5.11 Strategy - Ethnography and Participant Observation

What Ethnography is

In their book, *The Ethnographic Interview*, researchers have proposed a definition of ethnography that includes the study of the culture of a community. This study guide provides a brief, general introduction to ethnography, participant observation, and the various methods and techniques used in ethnography.

Participant observation is a research method in which the researcher observes and interacts with the community being studied.

What is a Participant?

There are two categories of the ethnographic study. The first is the participant observation, which is the most common. The second is the non-participant observation, which is the least common.

Category	Number of Participants
Participant observation	100
Non-participant observation	100
Participant observation (non-participant observation)	100
