**How Iran Plans to Fight America and Dominate the Middle East** Gabriel G. Tabarani, 2008 With the creeping possibility of a nuclear breakout its vigorous sponsorship of international non state armed groups and its escalating intervention next door in Iraq Lebanon and the Palestinian Territories the Islamic Republic of Iran is a triple threat at least to international security and America and Western s Middle Eastern interests. Indeed perhaps no country according to the West fits the definition of rogue state as well as Iran does. Making matters worse Iran s confidence and clout in the region and beyond are indubitably on the rise. But that is only the beginning. Shiite Persian Iran is not content with being just an inconsequential pariah. Iran has grand ambitions. Tehran wants to be the predominant state in the Middle East replacing the United States as the region s power broker and lording over its Sunni Arab neighbours. With the fall of its most fearsome competitors for regional pre eminence Iraq s Saddam Hussein and Afghanistan s Taliban Iran is unabashedly reasserting itself on the international stage. Buoyed by high energy prices emboldened by continuing American challenges in Iraq and Afghanistan encouraged by consistent unimpeded progress in its nuclear program and the increased influence of its extremist allies Hamas and Hizbollah Iran has its eye on becoming the regional hegemony. So the question here How Iran plans to fight America Israel and the West and dominate the Middle East. Gabriel G. Tabarani who is an Expert on Middle East Affairs will try to give the answer on this question in this book through a fair and balanced information analysis arguments examination and recommendations which will clear every point concerning the Iranian ambitions and the USA strategy to confront them.

**Pakistan in Focus** Robert V. Preger, 2007 Friend or foe Pakistan was extremely instrumental in supplying guns to Afghanistan to fight Russia. On the other hand some of the world s worst terrorists live seemingly in peace in Pakistan with little if any threat to their activities. Pakistan has developed a nuclear capability and is therefore a force in the world. But the population is kept extremely poor and often emigrates for better opportunities to Europe America and England. A certain subgroup of this population forms the base of a great deal of the known terrorists in the world and forms the foundations for terrorist attacks in the countries they emigrate to. Other subgroups become important parts of the social medical and scientific communities.
