Deborah Drake,John Muncie,Louise Westmarland,2012-12-06 *Criminal Justice Local and Global* and its sister text *Crime Local and Global* are two new teaching texts that aim to equip the reader with a critical understanding of the globally contested nature of crime and justice Through an examination of key concepts and criminological approaches the books

illuminate the different ways in which crime is constructed conceived and controlled International case studies are used to demonstrate how crime and justice are historically and geographically located in terms of the global local context and how processes of criminalisation and punishment are mediated in contemporary societies Criminal Justice Local and Global covers the way the local can be widened out to look at international transnational and supranational aspects of justice This means that issues such as corporate crime and human rights can be discussed in a comparative and critical way examining the possibility for example of an International Criminal Court cross national jurisdictions of regulation and control such as Interpol and so on Each chapter covers a different area of regulation punishment and process Unlike previous texts the book s approach will be an innovative approach to widen justice to encompass considerations beyond simple local jurisdictions The book will take instances of justice in one jurisdiction and use global examples to illustrate how ambiguous the concept of justice can be

The Transformation of Human Rights Fact-finding Philip Alston, Sarah Knuckey, 2016 Fact finding is at the heart of human rights advocacy and is often at the center of international controversies about alleged government abuses In recent years human rights fact finding has greatly proliferated and become more sophisticated and complex while also being subjected to stronger scrutiny from governments Nevertheless despite the prominence of fact finding it remains strikingly under studied and under theorized Too little has been done to bring forth the assumptions methodologies and techniques of this rapidly developing field or to open human rights fact finding to critical and constructive scrutiny The Transformation of Human Rights Fact Finding offers a multidisciplinary approach to the study of fact finding with rigorous and critical analysis of the field of practice while providing a range of accounts of what actually happens It deepens the study and practice of human rights investigations and fosters fact finding as a discretely studied topic while mapping crucial transformations in the field The contributions to this book are the result of a major international conference organized by New York University Law School s Center for Human Rights and Global Justice Engaging the expertise and experience of the editors and contributing authors it offers a broad approach encompassing contemporary issues and analysis across the human rights spectrum in law international relations and critical theory This book addresses the major areas of human rights fact finding such as victim and witness issues fact finding for advocacy enforcement and litigation the role of interdisciplinary expertise and methodologies crowd sourcing social media and big data and international guidelines for fact finding

Legitimacy and Legality in International Law Jutta Brunnée, Stephen J. Toope, 2010-08-05 It has never been more important to understand how international law enables and constrains international politics By drawing together the legal theory of Lon Fuller and the insights of constructivist international relations scholars this book articulates a pragmatic view of how international obligation is created and maintained First legal norms can only arise in the context of social norms based on shared understandings Second internal features of law or criteria of legality are crucial to law s ability to promote adherence to inspire fidelity Third legal norms are built maintained or destroyed through a continuing practice of legality Through case studies of the climate change regime the anti torture norm and the prohibition on the use of force it is shown that these three elements produce a distinctive legal legitimacy and a sense of commitment among those to whom law is addressed
