describes Tallis's career before and after he entered the Chapel. The fully considered biography is placed in the context of larger political and cultural changes of the period. Each monarch's reign is treated with an examination of the ways in which Tallis met its particular musical needs. Consideration is given to all of Tallis's surviving compositions including those probably intended for patrons and amateurs beyond the court and attention is paid to the context within which they were written. Tallis emerges as a composer whose music displays his special ability in setting words and creating ingenious musical patterns. A table places most of Tallis's compositions in a broad chronological order.

**Cambridge Music Manuscripts, 900-1700** Iain Fenlon, 1982-08-05

This volume marks the exhibition Cambridge Music Manuscripts 900-1700 mounted in the Fitzwilliam Museum in 1982. It draws together fifty-three manuscripts of polyphony and monophony from the college and university libraries of Cambridge, all selected for their textual and historical importance. A full technical description of each source is followed by a critical appraisal and in most cases at least one illustration is provided. Many of these manuscripts have never been adequately described in print and this book will be a valuable work of reference for musicologists, historians, and paleographers. Its plates will also provide a varied selection of transcription exercises for students of notation.
