✓ Exclusively available on IvyPanda

In everyone's life there is a person who is considered to be the closest one in the whole world. For me this person is my mother. My mother influences every step of my life: how I live and interact with other people. She is an inspiration for my achievements and guidance into the successful future. She has always helped me to overcome any difficulties that I faced since early childhood trying to give me hopes for better future. My mother combines the best features which a person may have; she is a clever, kind and open woman with beautiful appearance and rich inner world.

My mother is Dominican; she is quite a pretty and well educated woman. Despite her age she looks young and beautiful. My mother is not very tall though her height underlines her regular features. She has short curly black hair and shining brown eyes. My mother's skin is very soft and tender; when I hold her hands in mine I feel that I am protected from the whole world and I feel the happiest person. I like the way my mother dresses. She always tries to keep pace with fashion though her style is unique and individual.

She is slim and has a wonderful figure; her clothes lay a stress on her beautiful features. I would like to note that my mother is a wonderful person not only out but also inside. To my way of thinking she is the reflection of light; not in vain her name Lucia is translated from Italian as "light". She is an open, responsive and light person who is always there to help and support me at difficult moments of my life.

For me my mother is the cleverest person in the world. I can speak a lot about my mother because she is considered to be my reflection and my hero. One day I had to clean my room before the arrival of my relatives. My mother asked me: "Please, do something with your box of old posters. It takes a lot of space." I was in hesitation but
