Real World Finance: Boost Your Financial Literacy as All Schools Have Failed to Do Jerry L.

Copley, 2023-06-13 As a former mathematics teacher and a master s degree recipient I have witnessed a decline in basic mathematical abilities and financial literacy over the past twenty years It is disheartening To witness the anxieties people struggle with in their everyday lives especially when due to reliance on credit prompted me to do something I decided to write a book to break down even complex financial concepts into understandable terms Over the years I have talked with business owners bank mortgage lenders sales professionals finance managers and college and high school students along with coworkers about the many financial topics individuals encounter throughout their lives To be honest I was somewhat

surprised by the lack of understanding around basic financial concepts like budgeting compensation and remuneration insurance credit investments and even taxation Education has always been an integral part of my life I believe in the total education of the individual not just subject matter expertise An education that can last throughout a lifetime is complex yet simple timeless yet timely and most importantly it builds a foundation that is needed for ultimate success This book Real World Finance Boost Your Financial Literacy as All Schools Have Failed to Do builds the financial education that seems to be missing from society today It details financial concepts necessary to guide the individual through a lifetime of experiences and endeavors The financial topics include budgets credit insurance investments retirement and worker compensation with fringe benefits and taxes all tailored to an individual s personal financial life As a former tax associate I have assisted hundreds with their tax returns In too many cases individuals did not know how to fill out complete and or file their required tax return Some didn t even know what their W 2 was I have become determined to increase their financial literacy as I did with the thousands of students I taught Real World Finance Boost Your Financial Literacy as All Schools Have Failed to Do explains topics using real world examples from employee compensation and lease versus purchase to loans insurance retirement and the importance of investment to taxation Employing this method breaks down any intimidation of mathematics encountered by many of my former students and the general population while teaching necessary financial concepts and calculations needed for everyday living purchasing a car buying insurance setting up a budget comparing total compensation from various job opportunities retirement and investing filing tax returns comparing leasing renting versus ownership and more A Walmart employee I recently spoke with told me he had to learn many of these concepts for himself after suffering financial hardship He wished he would have been introduced to these concepts in school When I informed him I had taught many of the topics contained in Real World Finance Boost Your Financial Literacy as All Schools Have Failed to Do to my students he responded I wish I had you as a teacher I want to help more people like the Walmart employee and others I sincerely think they will not only benefit from the topics they will find them interesting and the narrative informative Thank you in advance for taking the time to look at Real World Finance Boost Your Financial Literacy as All Schools Have Failed to Do

Credit Searches Great Britain: Parliament: House of Commons: Treasury Committee,2009 The report by the Treasury Committee calls on the Office of Fair Trading and the Information Commissioner s Office to investigate the fairness of a part of the credit market The Report follows an inquiry sparked by concerns that in shopping around for credit especially for unsecured credit such as personal loans and credit cards consumers were building up a record of credit application searches on their credit reference files and that high numbers of recorded applications in fact made it harder for them to obtain credit or affected the rates charged The Committee s inquiry considered a range of evidence including from members of the public who responded to a call put through web site moneysavingexpert com to provide examples of their experiences and difficulties obtaining credit credit search companies themselves the OFT ICO and others The Report concludes that there is a fine balance of public interest between ensuring that fraud is prevented and consumers are protected from reckless lending and ensuring that the market is subject to the disciplines of informed consumer choice Loan providers have over 400 indicators that they may use to assess suitability the Committee did not get compelling evidence that application search data is essential Nor was it presented with overwhelming evidence that making multiple application searches is a major source of direct consumer detriment although the number of consumers doing this seems likely to rise However the Committee was extremely concerned about the effect of

the use of credit searches on market mechanisms since in principle the ability to shop around is not only an important means for consumers to assess the market but also provides a key discipline on providers During the course of the inquiry the Committee heard about some solutions which could reduce the adverse effects of the use of credit application search data in credit reference files it considers that any acceptable solution must strike an appropriate balance between minimising fraud and over borrowing and ensuring the market is subject to normal market disciplines It recommends that the OFT look at this
