## **Why We Hate Us American Discontent In The New Millennium:**

*Why We Hate Us* Dick Meyer, 2008-08-05 Americans are as safe well fed securely sheltered long lived free and healthy as any human beings who have ever lived on the planet But we are down on America So why do we hate us According to Dick Meyer the following items on this much abbreviated list are some of the contributors to our deep disenchantment with our own culture Cell phone talkers broadcasting the intimate details of their lives in public spaces Worship of self awareness self realization and self fulfillment T shirts that read Eat Me Facebook MySpace and kids being taught to market themselves High level cheating in business and sports Reality television and the cosmetic surgery boom Multinational corporations that claim We care about you The decline of organic communities A line of cosmetics called S L U T The phony red state blue state divide The penetration of OmniMarketing into OmniMedia and the insinuation of both into every facet of our lives You undoubtedly could add to the list with hardly a moment's thought In *Why We Hate Us* Meyer absolutely nails America's early twenty first century mood disorder He points out the most widespread carriers of the why we hate us germs including the belligerence of partisan politics that perverts our democracy the decline of once common manners the vulgarity of Hollywood entertainment the superficiality and untrustworthiness of the news media the cult of celebrity and the disappearance of authentic neighborhoods and voluntary organizations the kind that have actual meetings where one can hobnob instead of just clicking in an online contribution Meyer argues with biting wit and observations that make you want to shout Yes I hate that too that when the social spiritual and political turmoil that followed the sixties collided with the technological and media revolution at the turn of the century something inside us hit overload American culture no longer reflects our own values As a result we are now morally and existentially tired disoriented anchorless and defensive We hate us and we wonder why *Why We Hate Us* reveals why we do and also offers a thoughtful and uplifting prescription for breaking out of our current morass and learning how to hate us less It is a penetrating but always accessible Culture of Narcissism for a new generation and it carries forward ideas that resounded with readers in bestsellers such as *On Bullshit* and *Bowling Alone* **Democracy and the Next American Economy** Henry A. J. Ramos, 2019-04-30 Progressive intellectual Henry A J Ramos believes the United States is at a crossroads facing the most challenging moment since the civil rights movement of the late 1960s and early 1970s In fact absent major new interventions and investments he sees this moment as a pivotal turning point in the American journey in which political polarization income and wealth disparity and public violence much of which is race related threaten the very essence and integrity of our democracy and economy Ramos examines the policies that have contributed to America's decline including those that have led to the concentration of great wealth in the hands of a few while condemning many to systemic poverty and inequality Current economic and social trends he stresses are unsustainable and call for organized concerted action by people of conscience and those affected Ultimately Ramos provides a roadmap for the future so the United States can continue to provide opportunities for its people and serve again as a leader in the international community

He offers case studies of organizations that have successfully created and administered programs that further equity in society restore democratic practices implement better urban and city planning and protect the environment Demonstrating both the critical importance and real possibility of leveraging prosperity and justice for all Americans this compelling work is a must read for anyone interested in democracy economic restoration and environmental sustainability When Did White Trash Become the New Normal? Hauhart, 2018-12-07 Today the United States is a country divided along lines of gender economic inequality educational level and political affiliation Democrats typically select a different range of matters of serious public concern compared to Republicans Many Americans describe difficulty in coming to terms with the demands placed on them in their work communities and personal lives and achieving satisfaction The institutional crises that pervade our politics economy educational systems and communities have inspired a contemporary crisis a widespread inability for many to live as integrated effective selves in the twenty first century United States Drawing on a wide range of historical and contemporary research The Lonely Quest explores the dilemma of constructing the self in the U S today Against Values Philip J. Harold, 2022-11-01 Today s wholesale lack of trust in our institutions is a problem with deep roots in liberalism and it cannot be solved by tweaking a liberal paradigm in which different conceptions of the good create conflict that is resolved by a

sovereign state without reference to a nonexclusive common good Ultimately the essence of liberalism is contained in the language of values which serve as wedges to divide people Philip J Harold takes this problem head on with a thoroughgoing survey reaching back to the early modern era to uncover the nature of liberalism s basic assumptions and diagnose its breakdown As opposed to traditional liberal denial of a good superior to individual interest Harold proposes a postliberal political philosophy able to understand the common good as friendship and social trust built up by loyalty While critiquing values language Harold also addresses the concept of sovereignty and the invention of morality as its supplement the inappropriate distinction between the empirical and the transcendental the true nature of the secular and the sacred the necessarily symbolic expression of the common good and the false conceptualization of religion and politics
