Lethal Performances Otilie P. Klein, 2017 This book provides an in depth analysis of representations of female murderers in modern American drama Paying close attention to the plays plot form and style the study seeks to come to terms with the dramatic and cultural function of this phenomenon Given the rarity of female murder in real life the popularity and prevalence of this theme in culture is striking and unsettling at the same time After all a woman who kills not only violates against basic social rules but also upsets gender norms This potential to break with an ideology that rests on hierarchically structured gender binaries equips the figure of the female murderer with the power to symbolically kill established views about gender and sexuality It is this ideologically disruptive potential that makes the female murderer a fascinating object of study as her cultural figuration may provide information about the meaning assigned to women at a certain historical moment

Mulattas and Mestizas Suzanne Bost, 2010-02-25 In this broadly conceived exploration of how people represent identity in the Americas Suzanne Bost argues that mixture has been central to the definition of race in the United States Mexico and the Caribbean since the nineteenth century Her study is particularly relevant in an era that promotes mixed race musicians actors sports heroes and supermodels as icons of a new America Bost challenges the popular media s notion that a new millennium has ushered in a radical transformation of American ethnicity in fact this paradigm of the changing face of America extends throughout American history Working from literary and historical accounts of mulattas mestizas and creoles Bost analyzes a tradition dating from the nineteenth century of theorizing identity in terms of racial and sexual mixture By examining racial politics in Mexico and the United States racially mixed female characters in Anglo American African American and Latina narratives and ideas of mixture in the Caribbean she ultimately reveals how the fascination with mixture often corresponds to racial segregation sciences of purity and white supremacy The racism at the foundation of many nineteenth century writings encourages Bost to examine more closely the subtexts of contemporary writings on the browning of America Original and ambitious in scope *Mulattas and Mestizas* measures contemporary representations of mixed race identity in the United States against the history of mixed race identity in the Americas It warns us to be cautious of the current millennial celebration of mixture in popular culture and identity studies which may contrary to all appearances mask persistent racism and nostalgia for purity

Black Face, Maligned Race Anthony Gerard Barthelemy, 1999-03-01 Anthony Barthelemy considers the influence of English political social and theatrical history on the depiction of black characters on the English stage from 1589 to 1695 He shows that almost without exception blackness was associated with treachery evil and ugliness Barthelemy s central focus is on black characters that appeared in mimetic drama but he also examines two nonmimetic subgenres court masques and lord mayors pageants The most common black character was the villainous Moor Known for his unbridled libido and criminal behavior the Moor was Barthelemy contends the progenitor of the stereotypical black in today s world To account for the historical development of his character Barthelemy provides an extended etymological study of the word Moor and a discussion of the received tradition that made

blackness a signifier of evil and sin In analyzing the theatrical origins of the Moor Barthelemy discusses the medieval dramatic tradition in England that portrayed the devil and the damned as black men Variations of the stereotype the honest Moor and the Moorish waiting woman are also examined In addition to black characters Barthelemy considers native Americans and white North Africans because they were also called Moors Analyzing how nonblack non Christian men were characterized provides an opportunity to understand how important blackness was in the depiction of Africans Two works Peele s *The Battle of Alcazar* and Southerne s *Oroonoko* frame Barthelemy s study because they constitute important milestones in the dramatic representation of blacks Peele s *Alcazar* put on the mimetic stage the first black Moor of any dramatic significance and Sotherne s *Oroonoko* was the first play to have an African slave as its hero Among the other plays considered are Keeler s *Lust Dominion* Heywood s *The Fair Maid of the West* Beaumont and Fletcher s *The Knight of Malta* Marston s *Wonder of Women* and Shakespeare s *Titus Andronicus* and *Othello* In his provocative study of *Othello* Barthelemy shows how stereotypical attitudes about blacks are initially reversed and how *Othello* is eventually trapped into acting in accordance with the stereotype The first work to study the depiction of blacks in the drama of this period in a complete cultural context *Black Face Malignant Race* will be informative for anyone interested in the stereotypical representation of blacks in literature
