Exploring Wicked Problems Joseph Bentley PhD, Michael Toth PhD, 2020-04-21 Former Secretary of State George Shultz once drew a distinction between problems you can solve and problems you can only work at These two types of problems have names They are tame or wicked Many people believe that their problems are wicked yet few seem to understand what should be done with them Wicked problems are messy confusing unstable ill structured and ambiguous This book explores the timely issue of wicked problems what they are and why they are important The authors open the door to a greater understanding of wicked problems and an appreciation for their complexity sharing insights and recommendations on how to tackle them to make positive and productive changes in relationships at home and at work Making one's way successfully through the mess of obstacles and impediments that wicked problems present puts maximum pressure on our capabilities and stretches our tolerance for confusion conflict controversy and chaos Get guidance on grappling with the wicked problems in your life by increasing your knowledge about what they are and why they are so important to keep working at even if they can't be completely resolved *Society as an Interaction Space* Hanna Lehtimäki, Petri Uusikylä, Anssi Smedlund, 2020-02-29 As digitalization and social media are increasingly blurring the boundaries between traditional societal political and economic institutions this book provides a cross disciplinary examination of value co creation From various standpoints it examines how institutions contribute to service ecosystems and how digitalization is transforming value co creation in these ecosystems Further the book shares new perspectives on relational dynamics among government companies and citizens These insights fill the gaps between service science and political science by integrating

institutional logics into the concept of value co creation The book subsequently examines society as an interaction space Topics discussed include the new logic and transformation mechanisms of economic activities citizen participation governance and policy making in the face of technological innovations market based reforms and the risk of disconnect between citizens and policy making Here the focus is on value co creation in complex adaptive systems where institutions individuals and businesses negotiate value and interests in networked relations In closing the book presents a range of empirical case studies on value co creation which provide examples of active networked citizenship innovative governance and policy making democratic leadership and trust building dialogue among institutions The studies address the context of Nordic countries recognized as world leading democracies Pursuing a systems approach the book articulates a social reality composed of interacting and interconnected elements that cannot be captured with only micro or macro levels of analysis Service ecosystems are considered as configurations of people and technologies embedded in institutionalized rules cultural meanings and practices offering valuable insights into the service centered view of markets and society Given the breadth and depth of its coverage the book offers a valuable resource for all students and scholars interested in understanding and envisioning the future democratic landscape

Community Empowerment, Sustainable Cities, and Transformative Economies Taha Chaiechi, Jacob Wood, 2022-01-12 This edited volume presents the conference papers from the 1st International Conference on Business Economics Management and Sustainability BEMAS organized by the Centre for International Trade and Business in Asia CITBA at James Cook University This book argues that the orthodox methods of external risks climate change adaptation plans and sustainable economic growth in cities are no longer adequate These methods so far have not only ignored the ongoing structural changes associated with economic development but also failed to account for evolving industries composition and the emergence of new comparative advantages and skills Specifically this book looks at the vulnerable communities and exposed areas particularly in urban areas that tend to experience higher susceptibility to external risks such as climate change natural disasters and public health emergencies have been largely ignored in incremental adaptation plans Vulnerable communities and areas not only require different adaptive responses to climate risk but also possess unlocked adaptive capacity that can motivate different patterns of sustainable development to achieve the goals of the 2030 Agenda It is essential therefore to view transformative growth and fundamental reorientation of economic resources as integral parts of the solution Social disorganisation and vulnerability are other undesired outcomes of the unpredictable and widespread external economic shocks This is due to a sudden and tough competition between members of society to acquire precious resources most of which may be depleted during unprecedented events such as natural disasters or pandemics resulting in an even more chaotic and disorganised conditions

Ragam Persoalan Komunikasi Politik Indonesia Dr. Gun Gun Heryanto, M.Si., Tren politik yang terus berkembang khususnya pasca Reformasi mengungkap fakta dan realitas di berbagai panggung politik resmi dan jalanan. Fenomena yang menghadirkan para aktor politik profesional dan picisan yang sulit dibantah bahwa mereka telah menghadirkan warna partisipasi politik yang lebih bervariasi dari sekadar peserta komunikasi yang sebelumnya dipaksa pasif, tidak kreatif, miskin narasi, dan terbelenggu dalam jerat komunikasi politik yang kerap bersifat linier. Itu artinya situasi politik Indonesia sangatlah dinamis, mempertontonkan dramaturgi para lakon politik di panggung elektoral, menyajikan varian intrik politik, juga memunculkan beragam persoalan yang turut serta menstimulasi nalar diskursif publik. Pada etape yang lebih substansial, perhatian kita perlu diarahkan pada ragam persoalan mengenai sirkulasi pucuk pimpinan dalam pemilu, pengelolaan partai politik, pencegahan hoaks dalam pemilu, praktik komunikasi politik di media massa dan media sosial, serta sejumlah realitas politik lain yang penting untuk ditelisik lebih jauh. Sebagai upaya pembedahan yang komprehensif, penulis menggunakan pisau perspektif kajian komunikasi politik untuk menganalisis beragam kompleksitas peristiwa politik kontemporer Indonesia termasuk Pemilu 2024. Sehingga anatomi buku ini dapat dibaca sebagai kesatuan perspektif dari kumpulan chapters yang menjelaskan beragam fenomena komunikasi politik Indonesia.

Action Learning in Practice Mike Pedler, 2016-03-23 Previous editions of *Action Learning in Practice* established this authoritative overview of action learning around the world. Over the last decade, the move towards action-based organizational learning and development has accelerated, and action learning is now an established part of the education and development mainstream in large and small organizations. Fully revised and updated, this fourth edition covers the origins of action learning with Reg Revans' ideas and looks at their development and application today. Action learning is self-directed learning through tackling business and work problems with the support of peers and colleagues. A professional and diverse workforce attracted, influenced, and developed in this way is more able to deal effectively with the growing complexity and pressures of working life. As the limits of conventional training and development become more obvious, leaders are increasingly attracted to action-based approaches to learning when seeking better outcomes and returns on investment.
