Social Exclusion, Power, and Video Game Play David G. Embrick, Talmadge J. Wright, Andras Lukacs, 2012-03-01 While many books and articles are emerging on the new area of game studies and the application of computer games to learning therapeutic military and entertainment environments few have attempted to contextualize the importance of virtual play within a broader social cultural and political environment that raises the question of the significance of work play power and inequalities in the modern world Studies tend to concentrate on the content of virtual games but few have questioned how power is produced or reproduced by publishers gamers or even social media how social exclusion based on race class or gender in the virtual environment is reproduced from the real world and how actors are able to use new media to transcend their fears anxieties prejudices and assumptions The articles presented by the contributors in this volume represent cutting edge research in the area of critical game play with the hope of drawing attention to the need for more studies that are both sociological and critical
