Popular Texts in English Antonio Ballesteros González, 2001 This book comprises a collection of articles devoted to the academic study of popular texts in English. Authors analyse genres which had been habitually looked down on by canonical approaches to literature and art. They take into serious consideration forms like horror literature, the gothic, fantasy, detective fiction, science fiction, best sellers, films and television series of different kinds among some other representations of what conservative scholars had been considering as marginal. The referential richness of the perspectives reflected here demonstrates that popular texts can be enjoyable for readers and audiences at the same time that they can be significant in order to reach a better understanding of our culture and ourselves at the beginning of a new millennium. *Medieval and Renaissance Manuscripts at the University of California, Los Angeles* Mirella Ferrari, 2023-12-22 *Special Report - Highway Research Board* National Research Council (U.S.). Highway Research Board, 1962 **Reforming Fundamentalism** George M. Marsden, 1995 A sequel and companion to the author's widely acclaimed *Fundamentalism and American Culture*; this book uses the history of Fuller Theological Seminary as a lens through which to focus an examination of the broader story of evangelicalism and fundamentalism since the 1940s.
