and the Early Career John C. Weidman, Linda DeAngelo, 2020-02-17 This book celebrates the contributions of John Weidman and his colleagues to the understanding of student socialization in higher education. It includes innovative chapters reflecting new approaches to higher education student socialization with respect to students of color, gender, STEM, and students in higher education systems outside the USA. Specifically, the book examines socialization between and within a range of groups including national, international, and minority students, parents, doctoral students, early career faculty, and scholarly practitioners. The book assesses methodological approaches and suggests directions for reformulating theory and practice. Using sociological perspectives to address issues and concerns at both the undergraduate and graduate levels, the book gives renewed life to the college impact literature. It includes revisions and expansions of the original Weidman frameworks based on the synthesis of existing research with new work reflecting unique perspectives by a variety of authors. John Weidman has been an indisputable force in the study and understanding of student socialization in higher education. This new book by Weidman and his coeditor Linda DeAngelo represents an undeniably significant and welcomed expansion of the original Weidman model of student socialization. In updating and revising the original model, chapter authors give attention to various contemporary issues such as student diversity, gender differences, early career experiences, and internationalism. Whether one samples only some of the articles that constitute this book or reads all of them, the professional payoff will be substantial. Kenneth A. Feldman, Professor of Sociology, Stony Brook University. John Weidman has made a number of groundbreaking contributions to our understanding of student socialization in postsecondary education. This book, edited with Linda DeAngelo, brings together a group of fine scholars whose contributions will push our understanding even further. It is a significant addition to the college impact literature. Ernest T. Pascarella, Petersen Chair in Higher Education, University of Iowa.

Advances in Learning Processes Mary Beth Rosson, 2010-01-01 Readers will find several papers that address high level issues in the use of technology in education, for example, architecture and design frameworks for building online education materials or tools. Several other chapters report novel approaches to intelligent tutors or adaptive systems in educational settings. A number of chapters consider many roles for social computing in education, from simple computer mediated communication support to more extensive community building frameworks and tools. Finally, several chapters report state of the art results in tools that can be used to assist educators in critical tasks such as content presentation and grading.

Designing Culturally Competent Programming for PK-20 Classrooms Sprott, Katherine, O'Connor Jr., Johnny R., Msengi, Clementine, 2020-08-14 In order to promote effective learning, individuals must feel fully appreciated within their own unique identities, i.e., ethnicities, language differences, socioeconomic status, gender, religions. Culturally competent educators employ practices that acknowledge and build on cultural diversity and that identify students themselves as resources and honors assets possessed within the context of the school community. *Designing Culturally Competent Programming for PK-20 Classrooms* is a comprehensive research publication that explores strategies and best practices for

designing culturally competent curricula and serves as a courier for stakeholders fostering inclusive and forward thinking opportunities in PK 20 classrooms Highlighting a wide range of topics such as ethics leadership and organizational development this book is ideal for educators administrators academicians curriculum developers instructional designers researchers and students

Refocusing the Self in Higher Education Glen Sherman, 2014-04-24 In higher education literature theories of learning and development have largely been adapted from psychology to the exclusion of basic insights from philosophy This volume addresses the gaps in higher education's theoretical base created by this inattention to philosophy and reflects on the significance of the history of philosophy for the field of higher education Key insights from phenomenological and then deconstructive philosophy are explained in an accessible and useful way and woven into a practical theory of the student subject and its implications for learning and development Finally narrative theory is introduced in conjunction with these philosophical considerations as the author considers alternative ways of conceptualizing the student the student's experience and the unification of the curricular co-curricular and extracurricular aspects of higher education

The Adult Learner Malcolm S. Knowles, Elwood F. Holton III, Richard A. Swanson, 2014-12-05 How do you tailor education to the learning needs of adults Do they learn differently from children How does their life experience inform their learning processes These were the questions at the heart of Malcolm Knowles's pioneering theory of andragogy which transformed education theory in the 1970s The resulting principles of a self-directed experiential problem-centered approach to learning have been hugely influential and are still the basis of the learning practices we use today Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve This eighth edition has been thoughtfully updated in terms of structure content and style On top of this online material and added chapter level reflection questions make this classic text more accessible than ever The new edition includes Two new chapters Neuroscience and Andragogy and Information Technology and Learning Updates throughout the book to reflect the very latest advancements in the field A companion website with instructor aids for each chapter If you are a researcher practitioner or student in education an adult learning practitioner training manager or involved in human resource development this is the definitive book in adult learning that you should not be without
