**Merging Numeracy with Literacy Practices for Equity in Multilingual Early Year Settings** Robyn

Jorgensen, Mellony Graven, 2022-01-01 This book draws on both in and out of school literacy practices with teachers and families to enhance the numeracy of early learners. It provides highly illustrative exemplars targeted for learners up to approximately eight years of age whose home language differs from the language of instruction. It identifies the challenges faced by these learners and their families and shares ways of building both literacy and numeracy skills for some of the vulnerable learners nationally and internationally. The book shares the outcomes and strategies for teaching mathematics to early years learners and highlights the importance of literacy practices for learners for whom the language of instruction is different from their home language. Readers will gain a practical sense of how to create contexts, classrooms and practices to scaffold these learners to build robust understandings of mathematics.

**Critical Issues in South African Education**

Charl C. Wolhuter, 2020-12-31 The main thesis of this book is that given that South African education faces major challenges the BRICS Brazil Russia India China and South Africa constellation of states offers thus far overlooked a valuable tertium comparationis a source of international comparative perspectives to inform the domestic scholarly discourse on education. This book first investigates the national contexts and development of education in the BRICS countries arguing that this grouping represents a valuable but yet overlooked field for illuminating South African education issues with international perspectives. The book consists of chapters arguing for and illustrating this thesis from a variety of angles. Common to all chapters is that authors used the comparative method in education that is comparing the national education system in their education societal context interrelationships of the BRICS countries. The chapters focus on a number of critical issues in South African education including the language of learning and teaching issue the alignment of the world of education with the world of work early childhood education and the development of world class universities. Regarding the last for example China has been the terrain of the most intensive national projects of establishing world class universities with Project 985 Project 211 and the Double First Class University project. The chapters demonstrate what South Africa in approaching her education issues can learn from the experience of the BRICS countries.
